Independent Auditor's Report

Board of Directors Harris County Municipal Utility District No. 391 Harris County, Texas

Opinions

We have audited the financial statements of the governmental activities and each major fund of Harris County Municipal Utility District No. 391 the District), as of and for the year ended May 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of May 31, 2022, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance

Board of Directors Harris County Municipal Utility District No. 391 Page 2

and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedule, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Directors Harris County Municipal Utility District No. 391 Page 3

Supplementary Information (Not Subjected to Audit Procedures)

Our audit was performed for the purpose of forming opinions on the basic financial statements as a whole. The accompanying schedules required by the Texas Commission on Environmental Quality listed in the table of contents are presented for the purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Management's Discussion and Analysis May 31, 2022

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to financial statements. This report also contains supplementary information required by the Governmental Accounting Standards Board and other information required by the District's state oversight agency, the Texas Commission on Environmental Quality (the Commission).

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, sanitary sewer and drainage services. Other activities, such as the provision of recreation facilities and solid waste collection, are minor activities and are not budgeted or accounted for as separate programs. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented on the left side of the statements, a column for adjustments is to the right of the fund financial statements and the government-wide financial statements are presented to the right side of the adjustments column. The following sections describe the measurement focus of the two types of statements and the significant differences in the information they provide.

Government-wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District's government-wide financial statements include the statement of net position and statement of activities, which are prepared using accounting principles that are similar to commercial enterprises. The purpose of the statement of net position is to attempt to report all of the assets, liabilities, and deferred inflows and outflows of resources of the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District's assets, liabilities, and deferred inflows and outflows of resources is labeled as net position and this difference is similar to the total stockholders' equity presented by a commercial enterprise.

The purpose of the statement of activities is to present the revenues and expenses of the District. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current year.

Management's Discussion and Analysis (Continued) May 31, 2022

Although the statement of activities looks different from a commercial enterprise's statement of income, the financial statement is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as change in net position, essentially the same thing.

Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the general fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations.

Governmental Funds

Governmental-fund financial statements consist of a balance sheet and a statement of revenues, expenditures and changes in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a very short period of time, but do not include capital assets such as land and water, sewer and drainage systems. Fund liabilities include amounts that are to be paid within a very short period after the end of the fiscal year. The difference between a fund's assets, liabilities, and deferred inflows and outflows of resources is labeled the fund balance and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the fiscal year.

Because the focus of the government-wide and fund financial statements is different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis in the notes to financial statements that describes the adjustments to fund balances to arrive at net position presented in the governmental activities column on the statement of net position. Also, there is an analysis in the notes to financial statements that reconciles the total change in fund balances for all governmental funds to the change in net position, as reported in the governmental activities column in the statement of activities.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential to a full understanding of the data found in the government-wide and fund financial statements.

Management's Discussion and Analysis (Continued)
May 31, 2022

Financial Analysis of the District as a Whole

The District's overall financial position and activities for the past two years are summarized as follows, based on the information included in the government-wide financial statements.

Summary of Net Position

	2022	2021
Current and other assets Capital assets	\$ 16,167,763 37,747,921	\$ 17,770,487 35,769,843
Total assets	53,915,684	53,540,330
Deferred outflows of resources	1,474,100	1,400,859
Total assets and deferred outflows of resources	\$ 55,389,784	\$ 54,941,189
Long-term liabilities Other liabilities	\$ 50,405,837 1,597,665	\$ 53,036,077 1,443,927
Total liabilities	52,003,502	54,480,004
Net position:		
Net investment in capital assets	(10,081,194)	(11,802,646)
Restricted	5,547,709	5,465,575
Unrestricted	7,919,767	6,798,256
Total net position	\$ 3,386,282	\$ 461,185

The total net position of the District increased by \$2,925,097. The majority of the increase in net position is related to tax revenues intended to pay principal on the District's bonded indebtedness, which is shown as long-term liabilities in the government-wide financial statements. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Management's Discussion and Analysis (Continued) May 31, 2022

Summary of Changes in Net Position

	2022		2021	
Revenues:			_	
Property taxes	\$	7,238,545	\$ 7,043,289	
City of Houston rebates		202,563	176,224

Debt service		1,778,902	 2,125,172	
Total expenses		7,698,167	 7,939,238	
Change in net position		2,925,097	2,414,981	
Net position, beginning of year		461,185	 (1,953,796)	
Net position, end of year	\$	3,386,282	\$ 461,185	

Financial Analysis of the District's Funds

The District's combined fund balances as of the end of the fiscal year ended May 31, 2022, were \$14,809,797, a decrease of \$1,794,392 from the prior year.

The general fund's fund balance increased by \$1,121,076 due to property tax, regional water fee and service revenues being greater than service operations and capital outlay expenditures. In addition, tap connection and inspection fee revenues exceeded related tap connection expenditures.

The debt service fund's fund balance increased by \$43,147 due to property tax revenues exceeding bond principal and interest expenditures.

The capital projects fund's fund balance decreased by \$2,958,615 due to capital outlay expenditures.

Management's Discussion and Analysis (Continued)
May 31, 2022

General Fund Budgetary Highlights

There were several differences between the final budgetary amounts and actual amounts. The major differences between budget and actual were due to property taxes, City of Houston rebates, and sewer service revenues, tap connection and inspection fees revenues and related expenditures, regional water fee revenues and related expenditures, contracted services and repairs and maintenance expenditures being higher than anticipated. In addition, water service revenues and capital outlay expenditures were lower than anticipated and interfund transfers in were received but not included in the current year budget. The fund balance as of May 31, 2022, was expected to be \$7,658,148 and the actual end-of-year fund balance was \$7,870,075.

Capital Assets and Related Debt

Capital Assets

Capital assets held by the District at the end of the current and previous fiscal years are summarized below:

Capital Assets (Net of Accumulated Depreciation)

		2022	2021
Land and improvements	\$	10,618,768	\$ 10,618,768
Construction in progress		4,440,858	1,613,615
Water facilities		8,404,117	8,779,965
Wastewater facilities		12,344,262	12,839,246
Park facilities		1,939,916	 1,918,249
Total capital assets	\$	37,747,921	\$ 35,769,843
During the current year, additions to capital assets were as follows:			
Construction in progress related to construction of the 0.95-M	GD		
wastewater treatment plant			\$ 2,827,243
Irrigation enhancements on Louetta Road medians			91,496
Landscape improvements to serve Villages of Cypress Lakes,	Section	on 18	 120,948
Total additions to capital assets			\$ 3,039,687

The developer within the District has constructed water, sewer, drainage and park facilities on behalf of the District under the terms of contracts with the District. The District has agreed to purchase these facilities from the proceeds of future bond issues subject to the approval of the Commission. As of May 31, 2022, a liability for developer-constructed capital assets of \$120,720 was recorded in the government-wide financial statements.

Management's Discussion and Analysis (Continued) May 31, 2022

Debt

The changes in the debt position of the District during the fiscal year ended May 31, 2022, are summarized as follows:

Long-term debt payable, beginning of year	\$ 53,036,077
Increases in long-term debt	5,016,884
Decreases in long-term debt	(7,647,124)
Long-term debt payable, end of year	\$ 50,405,837

During the fiscal year ended May 31, 2022, the District issued \$4,820,000 in unlimited tax refunding bonds, Series 2021 to refund \$1,480,000 of outstanding Series 2012A bonds and \$3,325,000 of outstanding Series 2013A bonds. The District refunded the bonds to reduce total debt service payments over future years by \$802,625 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$673,750.

At May 31, 2022, the District had \$15,190,000 of unlimited tax bonds authorized, but unissued, for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems and \$1,100,000 for financing and constructing recreational facilities within the District.

The District's bonds carry underlying ratings of "BBB" from Standard & Poor's and "A2" from Moody's Investors Service. The District's Series 2015 refunding bonds and 2021 refunding bonds carry a "AA" rating by from Standard & Poor's by virtue of bond insurance issued by Assured Guaranty Municipal Corp. The Series 2015 refunding bonds also carry an "A1" rating from Moody's Investors Service by virtue of bond insurance issued by Assured Guaranty Municipal Corp. The District's Series 2013, 2016 and 2019 refunding bonds and Series 2014A, 2014B, 2015A, 2017 and 2020 bonds carry a "AA" rating by from Standard & Poor's virtue of bond insurance issued by Build America Mutual Assurance Company. The District's Series 2016A bonds carry a "Baa2" rating from Moody's Investors Service by virtue of bond insurance issued by National Public Finance Guarantee Corp.

Other Relevant Factors

Relationship to the City of Houston

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Houston (the City), the District must conform to the City ordinance consenting to the creation of the District. In addition, the District may be annexed by the City without the District's consent, except as set forth as follows.

Management's Discussion and Analysis (Continued)
May 31, 2022

Strategic Partnership Agreement

Effective December 20, 2007, the District entered into a Strategic Partnership Agreement with the City, which annexed certain portions of the District into the City for "limited purposes" as described therein. Under the terms of the Strategic Partnership Agreement, the City has agreed it will not annex the District as a whole for full purposes for 30 years from the date of the agreement.

Notes to Financial Statements May 31, 2022

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Harris County Municipal Utility District No. 391 (the District) was created by an order of the Texas Commission on Environmental Quality (the Commission), effective November 14, 2002, in accordance with the Texas Water Code, Chapter 54. The District operates in accordance with Chapters 49 and 54 of the Texas Water Code and is subject to the continuing supervision of the Commission. The principal functions of the District are to finance, construct, own and operate waterworks, wastewater and drainage facilities and to provide such facilities and services to the customers of the District.

The District is governed by a Board of Directors (the Board) consisting of five individuals who are residents or owners of property within the District and are elected by voters within the District. The Board sets the policies of the District. The accounting and reporting policies of the District conform to accounting principles generally accepted in the United States of America for state and local governments, as defined by the Governmental Accounting Standards Board. The following is a summary of the significant accounting and reporting policies of the District:

Reporting Entity

The accompanying government-wide financial statements present the financial statements of the District. There are no component units that are legally separate entities for which the District is considered to be financially accountable. Accountability is defined as the District's substantive appointment of the voting majority of the component unit's governing board. Furthermore, to be financially accountable, the District must be able to impose its will upon the component unit or there must be a possibility that the component unit may provide specific financial benefits to, or impose specific financial burdens on, the District.

Government-wide and Fund Financial Statements

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, wastewater, drainage and other related services. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented with a column for adjustments to convert to the government-wide financial statements.

The government-wide financial statements report information on all of the activities of the District. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities generally are financed through taxes, charges for services and intergovernmental revenues. The statement of activities reflects the revenues and expenses of the District.

Notes to Financial Statements May 31, 2022

The fund financial statements provide information about the District's governmental funds. Separate statements for each governmental fund are presented. The emphasis of fund financial statements is directed to specific activities of the District.

The District presents the following major governmental funds:

General Fund – The general fund is the primary operating fund of the District which accounts for all financial resources not accounted for in another fund. Revenues are derived primarily from property taxes, charges for services and interest income.

Debt Service Fund – The debt service fund is used to account for financial resources that are restricted, committed or assigned to expenditures for principal and interest related costs, as well as the financial resources being accumulated for future debt service.

Capital Projects Fund – The capital projects fund is used to account for financial resources that are restricted, committed or assigned to expenditures for capital outlays.

Fund Balances - Governmental Funds

The fund balances for the District's governmental funds can be displayed in up to five components:

Nonspendable – Amounts that are not in a spendable form or are required to be maintained intact.

Restricted – Amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed – Amounts that can be used only for the specific purposes determined by resolution of the Board. Commitments may be changed or lifted only by issuance of a resolution by the District's Board.

Assigned – Amounts intended to be used by the District for specific purposes as determined by management. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

Unassigned – The residual classification for the general fund and includes all amounts not contained in the other classifications.

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District applies committed amounts first, followed by assigned amounts, and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Notes to Financial Statements
May 31, 2022

Measurement Focus and Basis of Accounting

Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

Nonexchange transactions, in which the District receives (or gives) value without directly giving (or receiving) equal value in exchange, include property taxes and donations. Recognition standards are based on the characteristics and classes of nonexchange transactions. Revenues from property taxes are recognized in the period for which the taxes are levied. Intergovernmental revenues are recognized as revenues, net of estimated refunds and uncollectible amounts, in the accounting period when an enforceable legal claim to the assets arises and the use of resources is required or is first permitted. Donations are recognized as revenues, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met. Amounts received before all eligibility requirements have been met are reported as liabilities.

Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and liabilities are generally included on the balance sheet. The statement of governmental funds revenues, expenditures and changes in fund balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in spendable resources. General capital asset acquisitions are reported as expenditures and proceeds of long-term debt are reported as other financing sources. Under the modified accrual basis of accounting, revenues are recognized when both measurable and available. The District considers revenues reported in the governmental funds to be available if they are collectible within 60 days after year-end. Principal revenue sources considered susceptible to accrual include taxes, charges for services and investment income. Other revenues are considered to be measurable and available only when cash is received by the District. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures when payment is due.

Deferred Outflows and Inflows of Resources

A deferred outflow of resources is a consumption of net position that is applicable to a future reporting period and a deferred inflow of resources is an acquisition of net position that is applicable to a future reporting period.

Notes to Financial Statements May 31, 2022

Interfund Transactions

Transfers from one fund to another fund are reported as interfund receivables and payables if there is intent to repay the amount and if there is the ability to repay the advance on a timely basis. Operating transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

Pension Costs

The District does not participate in a pension plan and, therefore, has no pension costs.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Investments and Investment Income

Investments in certificates of deposit, mutual funds, U.S. Government and agency securities, and certain pooled funds, which have a remaining maturity of one year or less at the date of purchase, are recorded at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market values.

Investment income includes dividends and interest income and the net change for the year in the fair value of investments carried at fair value. Investment income is credited to the fund in which the investment is recorded.

Property Taxes

An appraisal district annually prepares appraisal records listing all property within the District and the appraised value of each parcel or item as of January 1. Additionally, on January 1, a tax lien attaches to property to secure the payment of all taxes, penalty and interest ultimately imposed for the year on the property. After the District receives its certified appraisal roll from the appraisal district, the rate of taxation is set by the Board of the District based upon the aggregate appraisal value. Taxes are due and payable October 1 or when billed, whichever is later, and become delinquent after January 31 of the following year.

Notes to Financial Statements May 31, 2022

In the governmental funds, property taxes are initially recorded as receivables and deferred inflows of resources at the time the tax levy is billed. Revenues recognized during the fiscal year ended May 31, 2022, include collections during the current period or within 60 days of year-end related to the 2021 and prior years' tax levies.

In the government-wide statement of net position, property taxes are considered earned in the budget year for which they are levied. For the District's fiscal year ended May 31, 2022, the 2021 tax levy is considered earned during the current fiscal year. In addition to property taxes levied, any delinquent taxes are recorded net of amounts considered uncollectible.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an individual cost of \$5,000 or more and an estimated useful life of two years or more. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over their estimated useful lives as follows:

Years
10-45
10-45
15-20

Deferred Amount on Debt Refundings

In the government-wide financial statements, the difference between the reacquisition price and the net carrying amount of the old debt in a debt refunding is deferred and amortized to interest expense using the effective interest rate method over the remaining life of the old debt or the life of the new debt, whichever is shorter. Such amounts are classified as deferred outflows or inflows of resources.

Debt Issuance Costs

Debt issuance costs, other than prepaid insurance, do not meet the definition of an asset or deferred outflows of resources since the costs are not applicable to a future period and, therefore, are recognized as an expense/expenditure in the period incurred.

Notes to Financial Statements May 31, 2022

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Premiums and discounts on bonds are recognized as a component of long-term liabilities and amortized over the life of the related debt using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position/Fund Balances

Fund balances and net position are reported as restricted when constraints placed on them are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or are imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, generally, it is the District's policy to use restricted resources first.

Reconciliation of Government-wide and Fund Financial Statements

Amounts reported for net position of governmental activities in the statement of net position and fund balances in the governmental funds balance sheet are different because:

Capital assets used in governmental activities are not financial resources and are not reported in the funds.	\$ 37,747,921
Property tax revenue recognition and the related reduction of deferred inflows of resources are subject to availability of funds in the fund financial statements.	87,238
Penalty and interest on delinquent taxes is not receivable in the current period and is not reported in the funds.	32,103
Tax rebates are not receivable in the current period and are not reported in the funds.	18,992
Deferred amount on debt refundings for governmental activities are not financial resources and are not reported in the funds.	1,474,100

Notes to Financial Statements May 31, 2022

Accrued interest on long-term liabilities is not payable with current

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported

as expenditures in governmental funds.

Change in net position of governmental activities.

financial resources and is not reported in the funds.	\$ (378,032)
Long-term debt obligations are not due and payable in the current period and are not reported in the funds.	 (50,405,837)
Adjustment to fund balances to arrive at net position.	\$ (11,423,515)
Amounts reported for change in net position of governmental activities in the star different from change in fund balances in the governmental funds statement expenditures and changes in fund balances because:	
Change in fund balances.	\$ (1,794,392)
Governmental funds report capital outlays as expenditures. However, for government-wide financial statements, the cost of capitalized assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay expenditures exceeded depreciation expense and noncapitalized costs in the current period.	1,978,078
Governmental funds report the effect of premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	(196,884)
Governmental funds report proceeds from the sale of bonds because they provide current financial resources to governmental funds. Principal payments on debt are recorded as expenditures. None of these transactions, however, have any effect on net position.	3,010,231
Revenues that do not provide current financial resources are not reported as revenues for the funds but are reported as revenues in the statement of activities.	1,549

(73,485)

2,925,097

Notes to Financial Statements May 31, 2022

Note 2: Deposits, Investments and Investment Income

Deposits

Custodial credit risk is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; a surety bond; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Texas; or certain collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States.

At May 31, 2022, none of the District's bank balances were exposed to custodial credit risk.

Investments

The District may legally invest in obligations of the United States or its agencies and instrumentalities, direct obligations of Texas or its agencies or instrumentalities, collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States, other obligations guaranteed as to principal and interest by the State of Texas or the United States or their agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, obligations of states, agencies and counties and other political subdivisions with an investment rating not less than "A," insured or collateralized certificates of deposit, and certain bankers' acceptances, repurchase agreements, mutual funds, commercial paper, guaranteed investment contracts and investment pools.

The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in TexPool, an external investment pool that is not registered with the Securities and Exchange Commission. The State Comptroller of Public Accounts of the State of Texas has oversight of TexPool.

At May 31, 2022, the District had the following investments and maturities:

		Ma	aturities ii	n Yea	rs			
Туре	Amortized Cost	Less Than 1	1-5		6-10		More 1	Than 0
TexPool	\$ 14.893.017	\$ 14.893.017	\$	0	\$	0	\$	0

Notes to Financial Statements May 31, 2022

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy does not allow investments in certain mortgage-backed securities, collateralized mortgage obligations with a final maturity date in excess of 10 years and interest rate indexed collateralized mortgage obligations. The external investment pool is presented as an investment with a maturity of less than one year because it is redeemable in full immediately.

Credit Risk. Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At May 31, 2022, the District's investments in TexPool were rated "AAAm" by Standard & Poor's.

Summary of Carrying Values

The carrying values of deposits and investments shown previously are included in the balance sheet and statement of net position at May 31, 2022, as follows:

Carrying value:	
Deposits	\$ 843,483
Investments	 14,893,017
Total	\$ 15,736,500

Investment Income

Investment income of \$16,747 for the year ended May 31, 2022, consisted of interest income.

Note 3: Capital Assets

Notes to Financial Statements May 31, 2022

Annual Debt Service Requirements

The following schedule shows the annual debt service requirements to pay principal and interest on general obligation bonds and direct placement bonds outstanding at May 31, 2022:

	General Obligation Bonds			Direct Place					
Year	F	Principal	Interest		Principal		Interest	Total	
2023	\$	2,750,000	\$ 1,400,728	\$	275,000	\$	72,225	\$	4,497,953
2024		2,780,000	1,323,501		290,000		63,750		4,457,251
2025		2,825,000	1,236,676		300,000		54,900		4,416,576
2026		2,885,000	1,144,452		310,000		45,750		4,385,202
2027		2,925,000	1,053,202		320,000		36,300		4,334,502
2028-2032		15,535,000	3,912,009		1,050,000		48,150		20,545,159
2033-2037		11,535,000	1,744,774		-		-		13,279,774
2038-2041		5,940,000	368,243		-		-		6,308,243
Total	\$	47,175,000	\$ 12,183,585	\$	2,545,000	\$	321,075	\$	62,224,660

The bonds are payable from the proceeds of an ad valorem tax levied upon all property within the District subject to taxation, without limitation as to rate or amount.

Bonds voted	\$ 81,500,000
Bonds sold	66,310,000
Refunding bonds voted	32,600,000
Refunding bonds authorization used	2,211,202
Park bonds voted	6,000,000
Park bonds sold	4,900,000

Due to Developer

The developer of the District has constructed underground utilities and park facilities on behalf of the District. The District is maintaining and operating these facilities and has agreed to reimburse the developer for these construction costs and interest to the extent approved by the Commission. The District's engineer estimates reimbursable costs for completed projects are \$120,720. The District has agreed to reimburse these amounts, plus interest, to the extent approved by the Commission from the proceeds of future bond sales. These amounts have been recorded in the financial statements as long-term liabilities.

Notes to Financial Statements May 31, 2022

Note 5: Significant Bond Resolution and Commission Requirements

- A. The Bond Resolutions require that the District levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due. During the year ended May 31, 2022, the District levied an ad valorem debt service tax at the rate of \$0.6200 per \$100 of assessed valuation, which resulted in a tax levy of \$4,585,565 on the taxable valuation of \$739,607,306 for the 2021 tax year. The interest and principal requirements to be paid from the tax revenues and available resources are \$4,537,126 of which \$756,063 has been paid and \$3,781,063 is due September 1, 2022.
- B. During the current year, the District transferred \$26,493 from the capital projects fund to the general fund. The transfer was in accordance with the rules of the Commission.

Note 6: Maintenance Taxes

At an election held February 1, 2003, voters authorized a maintenance tax not to exceed \$1.00 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended May 31, 2022, the District levied an ad valorem maintenance tax at the rate of \$0.3500 per \$100 of assessed valuation, which resulted in a tax levy of \$2,588,626 on the taxable valuation of \$739,607,306 for the 2021 tax year. The maintenance tax is being used by the general fund to pay expenditures of operating the District.

Note 7: Regional Water Authority

The District is within the boundaries of the North Harris County Regional Water Authority (the Authority), which was created by the Texas Legislature. The Authority was created to provide a regional entity to acquire surface water and build the necessary facilities to convert from groundwater to surface water in order to meet conversion requirements mandated by the Harris-Galveston Subsidence District, which regulates groundwater withdrawal. As of May 31, 2022, the Authority was billing the District \$4.60 per 1,000 gallons of water pumped from its wells. This amount is subject to future increases.

Note 8: Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District participates along with other entities in the Texas Municipal League's Intergovernmental Risk Pool (the Pool). The Pool purchases commercial insurance at group rates for participants in the Pool. The District has no additional risk or responsibility to the Pool, outside of payments of insurance premiums. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts in the past three fiscal years.

Notes to Financial Statements
May 31, 2022

Note 9: Strategic Partnership Agreement

Effective December 20, 2007, the District and the City entered into a Strategic Partnership Agreement (the Agreement) under which the City annexed a tract of land (the tract) within the boundaries of the District for limited purposes. The District continues to exercise all powers and functions of a municipal utility district as provided by law. As consideration for the District providing services as detailed in the Agreement, the City agrees to remit one-half of all sales and use tax revenues generated within the boundaries of the tract. As consideration for the sales tax payments by the City, the District agrees to continue to provide and develop water, sewer and drainage services within the District in lieu of full purpose annexation. The City agrees it will not annex the District for full purposes or commence any action to annex the District during the term of the Agreement, which is 30 years. During the current year, the District recorded \$202,563 in revenues related to the Agreement.

Note 10: Refunding Bonds

During the fiscal year ended May 31, 2022, the District issued \$4,820,000 in unlimited tax refunding bonds, Series 2021 to refund \$1,480,000 of outstanding Series 2012A bonds and \$3,325,000 of outstanding Series 2013A bonds. The District refunded the bonds to reduce total debt service payments over future years by \$802,625 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$673,750.

Notes to Required Supplementary Information May 31, 2022

Budgets and Budgetary Accounting

An annual operating budget is prepared for the general fund by the District's consultants. The budget reflects resources expected to be received during the year and expenditures expected to be incurred. The Board of Directors is required to adopt the budget prior to the start of its fiscal year. The budget is not a spending limitation (a legally restricted appropriation). The original budget of the general fund was not amended during fiscal 2022.

The District prepares its annual operating budget on a basis consistent with accounting principles generally accepted in the United States of America. The Budgetary Comparison Schedule – General Fund presents the original and revised budget amounts, if revised, compared to the actual amounts of revenues and expenditures for the current year.
