INDEPENDENT AUDITOR'S REPORT

Board of Directors
Harris Municipal
Utility District No. 432
Harris, Texas

Opinions

I have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Harris Municipal Utility District No. 432 as of and for the year ended May 31, 2023, and the related notes to the financial statements, which collectively comprise Harris Municipal Utility District No. 432's basic financial statements as listed in the table of contents.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Harris Municipal Utility District No. 432, as of May 31, 2023, and the respective changes in financial position and, where applicable, cash flows there of for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am required to be independent of Harris Municipal Utility District No. 432, and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements relating to my audit. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Harris Municipal Utility District No. 432's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

INDEPENDENT AUDITOR'S REPORT (Continued)

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, I exercise professional judgment and maintain professional skepticism throughout the audit. I identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. I obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Harris Municipal Utility District No. 432's internal control. Accordingly, no such opinion is expressed. I evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements. I conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Harris Municipal Utility District No. 432's ability to continue as a going concern for a reasonable period of time.

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that I identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

INDEPENDENT AUDITOR'S REPORT (Continued)**Supplementary Information**

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Harris Municipal Utility District No. 432's basic financial statements. The supplementary information on Pages 24 to 52 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Except for the portion marked "unaudited," the information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The supplementary information marked "unaudited" has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I do not express an opinion or provide any assurance on it. The accompanying supplementary information includes financial data excerpted from prior year financial statements which were audited by my firm.

Management's Discussion and Analysis

Using this Annual Report

Within this section of the Harris County Municipal Utility District No. 432 (the "District") annual report, the District's Board of Directors provides narrative discussion and analysis of the financial activities of the District for the fiscal year ended May 31, 2023.

The annual report consists of a series of financial statements plus additional supplemental information to the financial statements as required by its state oversight agency, the Texas Commission on Environmental Quality. In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program. In the District's case, the single governmental program is provision of water and sewer services. Other activities, such as garbage collection, are minor activities and are not budgeted or accounted for as separate programs. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented on the left side of the statements, a column for adjustments is to the right of the fund financial statements, and the government-wide financial statements are presented to the right side of the adjustments column. The following sections describe the measurement focus of the two types of statements and the significant differences in the information they provide.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District's government-wide financial statements include the statement of net position and statement of activities, which are prepared using accounting principles that are similar to commercial enterprises. The purpose of the statement of net position is to attempt to report all of the assets and liabilities owned by the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District's total assets and total liabilities is labeled as *net position* and this difference is similar to the total owners' equity presented by a commercial enterprise.

The purpose of the statement of activities is to present the revenues and expenses of the District. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current period.

Although the statement of activities looks different from a commercial enterprise's income statement, the financial statement is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as *change in net position*, essentially the same thing.

Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations.

Governmental fund financial statements consist of a balance sheet and statement of revenues, expenditures and change in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a very short period of time, but do not include capital assets such as land and water and sewer systems. Fund liabilities include amounts that are to be paid within a very short period after the end of the fiscal year. The difference between a fund's total assets and total liabilities is labeled the fund balance, and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the fiscal year.

Because the focus of the government-wide and fund financial statements are different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis in Note 3 of the notes to the financial statements that reconciles the total fund balances to the amount of net position presented in the governmental activities column on the statement of net position. Also, there is an analysis in Note 3 of the notes to the financial statements that reconciles the total change in fund balances for all governmental funds to the change in net position as reported in the governmental activities column in the statement of activities.

Financial Analysis of the District as a Whole

Financial Analysis of the District as a Whole begins with an understanding of how financial resources flow through the District's funds. Resources in the Capital Projects Fund are derived principally from proceeds of the sale of bonds, and expenditures from this fund are subject to the Rules of the Texas Commission on Environmental Quality. Resources in the Debt Service Fund are derived principally from the collection of property taxes and are used for the payment of tax collection costs and bond principal and interest. Resources in the General Fund are derived principally from property taxes and billings for water and sewer services and are used to operate and maintain the system and to pay costs of administration of the District.

Management has financial objectives for each of the District's funds. The financial objective for the Capital Projects Fund is to spend the funds as necessary in accordance with the Rules of the Texas Commission on Environmental Quality. The financial objective for the Debt Service Fund is to levy the taxes necessary to pay the fiscal year debt service requirements plus the cost of levying and collecting taxes, leaving the appropriate fund balance as recommended by the District's financial advisor. The financial objective for the General Fund is to keep the fund's expenditures as low as possible while ensuring that revenues are adequate to cover expenditures and maintaining the fund balance that Management believes is prudent. Management believes that these financial objectives were met during the fiscal year.

Management believes that the required method of accounting for certain elements of the government-wide financial statements makes the government-wide financial statements as a whole not useful for financial analysis. In the government-wide financial statements, capital assets and depreciation expense have been required to be recorded at historical cost. Management's policy is to maintain the District's capital assets in a condition greater than or equal to the condition required by regulatory authorities, and management does not believe that depreciation expense is relevant to the management of the District. In the government-wide financial statements, certain non-cash costs of long-term debt are capitalized and amortized over the life of the related debt. Management believes that this required method of accounting is not useful for financial analysis of the District and prefers to consider the required cash flows of the debt as reported in the fund statements and the notes to the financial statements. In the government-wide financial statements, property tax revenues are required to be recorded in the fiscal year for which the taxes are levied, regardless of the year of collection. Management believes that the cash basis method of accounting for property taxes in the funds provides more useful financial information.

The following required summaries of the District's overall financial position and operations for the past two years are based on the information included in the government-wide financial statements. For the reasons described in the preceding paragraph, a separate analysis of the summaries is not presented.

Financial Analysis of the District's Funds

The District's combined fund balances as of the end of the fiscal year ended May 31, 2023 were \$14,090,746, an increase of \$2,273,054 from the prior year.

The General Fund balance increased by \$1,144,629, in accordance with the District's financial plan.

The Debt Service Fund balance increased by \$1,190,114, in accordance with the District's financial plan.

The Capital Projects Fund balance decreased by \$61,689, as authorized expenditures exceeded proceeds from the Series 2022 Bond Anticipation Note and interest earnings on deposits and investments

General Fund Budgetary Highlights

The Board of Directors did not amend the budget during the fiscal year. The District's budget is primarily a planning tool. Accordingly, actual results varied from the budgeted amounts. A comparison of actual to budgeted amounts is presented on Page 23 of this report. The budgetary fund balance as of May 31, 2023, was expected to be \$4,903,874 and the actual end of year fund balance was \$4,785,632.

Capital Asset and Debt Administration

Capital Assets

Capital assets held by the District at the end of the current and previous fiscal years are summarized as follows:

	<u>Capital Assets (Net of Accumulated Depreciation)</u>

Total additions to capital assets		540,902
Decreases:		
Depreciation		<u>(620,149)</u>
Net change to capital assets	\$	<u>(79,247)</u>

Debt

On November 22, 2022, the District issued its Series 2022 Bond Anticipation Note (the "BAN") in the amount of \$2,790,000 at an interest at of rate of 5.170% per annum. The BAN was repaid from the proceeds of the District's \$14,470,000 Series 2023 Unlimited Tax Bonds issued July 19, 2023.

Changes in the bonded debt position of the District during the fiscal year ended May 31, 2023, are summarized as follows:

Bonded debt payable, beginning of year	\$ 48,130,000
Bonds paid	<u>(1,560,000)</u>
Bonded debt payable, end of year	<u>\$ 46,570,000</u>

At May 31, 2023, the District had \$66,980,000 of bonds authorized but unissued for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage system within the District. In addition, the District had \$7,955,000 of bonds authorized but unissued for the purposes of acquiring, constructing and improving the parks and recreation facilities within the District.

The District's Series 2016, 2017, 2018, 2019, 2019 Refunding, 2020, 2021, 2021A and 2022 bonds have an underlying rating of Baa2 by Moody's. The Series 2016 and 2018 bonds are insured by Build America Mutual Assurance Company. The Series 2017, 2019, 2019 Refunding, 2020, 2021, 2021A and 2022 bonds are insured by Assured Guaranty Municipal Corp. The insured rating of the Series 2016, 2017, 2018, 2019, 2019 Refunding, 2020, 2021, 2021A and 2022 bonds is AA by Standard & Poor's. The Series 2017, 2019, 2019 Refunding, 2020, 2021, 2021A and 2022 bonds are also rated A2 by Moody's. The District bonds prior to the Series 2016 bonds are not rated or insured. There were no changes in the bond ratings during the fiscal year ended May 31, 2023.

As further described in Note 5 of the notes to the financial statements, developers within the District are constructing water, sewer and drainage facilities on behalf of the District under the terms of contracts with the District. The District has agreed to purchase these facilities from the proceeds of future bond issues subject to the approval of the Texas Commission on Environmental Quality. At May 31, 2023, the estimated amount due to the developers was \$2,124,865.

RELEVANT FACTORS AND WATER SUPPLY ISSUES

Property Tax Base

The District's tax base increased approximately \$94,620,000 for the 2022 tax year (approximately 25%) primarily due to the addition of new houses to the tax base.

Relationship to the City of Houston

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Houston, the District must conform to a City of Houston ordinance consenting to the creation of the District. In addition, the District may be annexed by the City of Houston. If the District is annexed, the City will assume the District's assets and obligations (including the bonded indebtedness) and dissolve the District within ninety (90) days.

The District is authorized to enter into a strategic partnership agreement with the City of Houston to provide the terms and conditions under which services would be provided and funded by the parties and under which the District would continue to exist for an extended period if the land within the District would be annexed for limited purposes by the City. The terms of any such agreement would be determined by the City and the District.

The District is not aware of any plans regarding annexation or a strategic partnership with the City of Houston.

Water Supply Issues

The District is within the Harris-Galveston Subsidence District (the "Subsidence District") Regulatory Area No. 3. The Subsidence District regulates the withdrawal of groundwater within its jurisdiction. The District's authority to pump ground water from its well is subject to annual permits issued by the Subsidence District. The Subsidence District has ordered certain areas of suburban Houston to convert most of their water supply to surface water under various schedules. Beginning in January 2003, the District was required to have a groundwater reduction plan ("GRP"), approved by the Subsidence District and by January 2005, the District must have provided evidence to the Subsidence District that construction of the infrastructure defined within the District's certified groundwater reduction plan has started. The Subsidence District has designated January 2010, as the date required for the District to restrict the withdrawal of ground water and convert 30% of its total water use to surface water; January 2025, as the date required for the District to restrict the withdrawal of ground water and convert 60% of its total water use to surface water and January 2035, as the date required for the District to restrict the withdrawal of ground water and convert 80% of its total water use to surface water. If the District does not meet the requirements of the Subsidence District, the District may be required to pay the disincentive fees adopted by the Subsidence District.

In May, 2001, the Texas Legislature created the West Harris County Regional Water Authority (the "Authority") and included the District within the boundaries of the Authority. The Authority was created to provide a regional entity to build the necessary facilities to meet the subsidence District's requirements for conversion from ground water to surface water of all permit holders within its boundaries, including the District. Accordingly, the District is required to pay groundwater reduction plan fees to the Authority, and in turn is entitled to rely upon the Authority's GRP to achieve compliance with the subsidence District's requirements. In accordance with the GRP, the Authority has negotiated a water supply contract with the City of Houston and has issued revenue bonds to finance the initial phase of the surface water supply system. The Authority may establish such fees, charges, or tolls as necessary to accomplish its purposes. The Authority's surface water pumpage fee was equal to \$3.95 as of May 31, 2023, and is expected to increase in the future. The Authority's surface water usage fee was equal to \$4.35 as of May 31, 2023, and is expected to increase in the future.

The District cannot predict the amount or level of fees and charges which may be due the Authority for future years, but anticipates that it will pass such fees through to its customers in higher water and sewer rates. In addition, conversion to surface water will necessitate improvements to the District's water supply system, which could require issuance of additional bonds. In the event the Authority fails to commence construction of surface water infrastructure by the deadline established by the Subsidence District, the District and others within the Authority's GRP group could be required to pay the disincentive fee on withdrawn groundwater. This disincentive fee is substantial, and the District expects it would need to pass such fee through to its customers in higher water and sewer rates. This disincentive fee would be in addition to the Authority's fee.

HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 432NOTES TO THE FINANCIAL STATEMENTSMAY 31, 2023

NOTE 1: REPORTING ENTITY

Harris County Municipal Utility District No. 432 (the "District") was created by was created by an order of the Texas Commission on Environmental Quality effective June 22, 2005, and operates accordance with Texas Water Code Chapters 49 and 54. The District is a political subdivision of the State of Texas, governed by an elected five member Board of Directors. The Board of Directors held its first meeting on June 30, 2005, and the first bonds were sold on December 5, 2011. The District is subject to the continuing supervision of the Texas Commission on Environmental Quality.

The District is empowered, among other things, to purchase, construct, operate and maintain all works, improvements, facilities and plants necessary for the supply of water; the collection, transportation and treatment of wastewater; and the control and diversion of storm water. The District may provide garbage disposal and collection services and construct and maintain recreational facilities. In addition, the District is empowered, if approved by the electorate, the Texas Commission on Environmental Quality and other governmental entities having jurisdiction, to establish, operate and maintain a fire department, either independently or jointly with certain other districts.

In evaluating how to define the District for financial reporting purposes, the Board of Directors of the District has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria established by the Governmental Accounting Standards Board. The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations and accountability for fiscal matters. The other criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the application of these criteria, there were no other entities which were included as a component unit in the District's financial statements.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

The District's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board (the "GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board issued through November 30, 1989 (when applicable), that do not conflict with or contradict GASB pronouncements. The more significant accounting policies established in GAAP and used by the District are discussed below.

Basic Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and governmental fund financial statements (reporting the District's funds). Because the District is a single-program government as defined by the GASB, the District has combined the government-wide statements and the fund financial statements using a columnar format that reconciles individual line items of fund financial data to government-wide data in a separate column on the face of the financial statements. An additional reconciliation between the fund and the government-wide financial data is presented in Note 3.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. The District's net position is reported in three parts – invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The government-wide statement of activities reports the components of the changes in net position during the reporting period.

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for in a separate set of self-balancing accounts that comprises its assets, liabilities, fund balances, revenues and expenditures and changes in fund balances. The District's fund balances are reported as nonspendable, restricted, committed, assigned or unassigned. Nonspendable fund balances are either not in spendable form or are contractually required to remain intact. Restricted fund balances include amounts that can only be used for the specific purposes stipulated by constitutional provisions, external resource providers or enabling legislation. Committed fund balances include amounts that can only be used for the specific purposes determined by formal action of the District's Board of Directors. Assigned fund balances are intended for a specific purpose but do not meet the criteria to be classified as restricted or committed. Unassigned fund balance is the residual classification for the District's General Fund and includes all spendable amounts not contained in the other classifications. The transactions of the District are accounted for in the following funds:

General Fund -- To account for all revenues and expenditures not required to be accounted for in other funds.

Debt Service Fund -- To account for the accumulation of financial resources for, and the payment of, bond principal and interest, paid principally from property taxes levied by the District.

Capital Projects Fund -- To account for financial resources designated to construct or acquire capital assets. Such resources are derived principally from proceeds of the sale of bonds.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Basis of Accounting

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting which recognizes all long-term assets and receivables as well as long-term debt and obligations. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Ad valorem property taxes are recognized as revenues in the fiscal year for which they have been levied and related penalties and interest are recognized in the fiscal year in which they are imposed. An allowance for uncollectibles is estimated for delinquent property taxes and reported separately in the financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred except for principal and interest on bonds payable which are recorded only when payment is due.

Interfund Activity

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is reported as interfund receivables or payables, as appropriate, as are all other outstanding balances between funds. Operating transfers between funds represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

Receivables

Service accounts receivable as reported are considered collectible. The District uses the direct write off method for uncollectible service accounts. Unbilled water and sewer revenues are not material and are not recorded at year end. The District considers service accounts revenues to be available if they are to be collected within 60 days after the end of the fiscal year.

In the fund financial statements, ad valorem taxes and penalties and interest are reported as revenues in the fiscal year in which they become available to finance expenditures of the fiscal year for which they have been levied. Property taxes which have been levied and are not yet collected (or have been collected in advance of the fiscal year for which they have been levied) are recorded as deferred inflow of resources. Property taxes collected after the end of the fiscal year are not included in revenues.

Capital Assets

Capital assets, which include property, plant, equipment, and immovable public domain or "infrastructure" assets are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$5,000 (including installation costs, if any, and associated professional fees) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed by the District. Donated capital assets are recorded at historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset or increase the value of an asset are capitalized. Costs incurred for repairs and maintenance are expensed as incurred.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

Depreciation on capital assets is computed using the straight-line method over the following estimated useful lives:

Plant and equipment	10-45 years
Underground lines	45 years

Long-term Liabilities

Long-term debt and other long-term obligations are reported in the government-wide financial statements. Bond premiums and discounts, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable premium or discount. If bonds are refunded and the carrying amount of the new debt is different than the net carrying amount of the old debt, the difference is netted against the new debt and amortized using the effective interest method over the shorter of the remaining life of the refunded debt or the life of the new debt issued.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures of the fund from which they are paid.

NOTE 4: CAPITAL ASSETS

At May 31, 2023, "Invested in capital assets, net of related debt" was \$(16,751,547). This amount was negative primarily because not all expenditures from bond proceeds (such as bond issuance costs) were for the acquisition of capital assets. Within Harris County, the county government assumes the maintenance and other incidents of ownership of most storm sewer facilities constructed by the District. Accordingly, these assets are not recorded in the financial statements of the District. In addition, some expenditures from bond proceeds were for the acquisition of capital assets beneath the capitalization threshold of \$5,000 (see Note 2) and some authorized expenditures were not for capital assets.

Developer Construction Commitments, Liabilities and Advances

The developers within the District are currently constructing certain underground facilities within the District's boundaries. The District has agreed to reimburse the developers for these construction and related engineering costs plus interest not to exceed the interest rate of the applicable District bond issue. These amounts are to be reimbursed from the proceeds of a future bond issue to the extent approved by the Texas Commission on Environmental Quality. The District's engineer stated that cost of the construction in progress at May 31, 2023, was \$2,124,865. This amount has been recorded in the government-wide financial statements and in the schedules in Notes 4 and 5.

As of May 31, 2023, the debt service requirements on the bonds payable were as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>

NOTE 6: PROPERTY TAXES

The Harris County Appraisal District has the responsibility for appraising property for all taxing units within the county as of January 1 of each year, subject to review and change by the county Appraisal Review Board. The appraisal roll, as approved by the Appraisal Review Board, must be used by the District in establishing its tax roll and tax rate. The District's taxes are usually levied in the fall, are due when billed and become delinquent after January 31 of the following year or 30 days after the date billed, whichever is later. On January 1 of each year, a statutory tax lien attaches to property to secure the payment of all taxes, penalties and interest ultimately imposed for the year on the property.

At an election held September 19, 2005, the voters within the District authorized a maintenance tax not to exceed \$1.50 per \$100 valuation on all property subject to taxation within the District and a parks and recreation tax not to exceed \$0.10 per \$100 valuation on all property subject to taxation within the District. This maintenance tax is being used by the General Fund to pay expenditures of operating the District.

On October 18, 2022, the District levied the following ad valorem taxes for the 2022 tax year on the adjusted taxable valuation of \$467,836,618:

	<u>Rate</u>	<u>Amount</u>
Debt service	\$ 0.8800	\$ 4,116,962
Maintenance	<u>0.3800</u>	<u>1,777,779</u>
	<u>\$ 1.2600</u>	<u>\$ 5,894,741</u>

A reconciliation of the tax levy to property tax revenues on the Statement of Activities is as follows:

2022 tax year total property tax levy	\$ 5,894,741
Appraisal district adjustments to prior year taxes	<u>84,032</u>
Statement of Activities property tax revenues	<u>\$ 5,978,773</u>

NOTE 7: DEPOSITS

The District complied with the requirements of the Public Funds Investment Act during the current fiscal year including the preparation of quarterly investment reports required by the Act.

State statutes authorize the District to invest and reinvest in direct or indirect obligations of the United States, the State of Texas, any county, city, school district, or other political subdivision of the state, or in local government investment pools authorized under the Public Funds Investment Act. Funds of the District may be placed in certificates of deposit of state or national banks or savings and loan associations within the state provided that they are secured in the manner provided for the security of the funds under the laws of the State of Texas. In accordance with the District's investment policies, during the current year the District's funds were invested in interest bearing accounts at authorized financial institutions and in TexPool, a local government investment pool sponsored by the State Comptroller. TexPool is rated AAAM by Standard & Poor's.

In accordance with state statutes and the District's investment policies, the District requires that insurance or security be provided by depositories for all funds held by them. At the balance sheet date, the carrying amount of the District's deposits was \$504,919 and the bank balance was \$579,218. Of the bank balance, \$436,692 was covered by federal insurance and \$142,526 was covered by the market value of collateral held by the District's custodial bank in the District's name. The market value of collateral was reported to the District by the depository.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

At the balance sheet date the carrying value and market value of the investments in TexPool was \$13,801,079.

Deposits restricted by state statutes and Bond Orders:

Debt Service Fund

For payment of debt principal and interest, paying agent fees and costs of assessing and collecting taxes:

NOTE 8: RISK MANAGEMENT

The District is exposed to various risks of loss related to: torts; theft of, damage to, and destruction of assets; errors and omissions; personal injuries and natural disasters. Significant losses are covered by insurance as described below.

At May 31, 2023, the District had physical damage and boiler and machinery coverage of \$8,699,090, comprehensive general liability coverage with a per occurrence limit of \$1,000,000 and \$3,000,000 general aggregate, pollution coverage of \$1,000,000, automobile liability coverage of \$1,000,000 and consultant's crime coverage of \$10,000 and a tax assessor-collector bond of \$25,000.

NOTE 9: LEASES

On February 2, 2015, the District and AUC Group, L.P. entered into an agreement for the lease of Expansion Equipment (the "Equipment") for the Sewage Treatment Plant (the "Plant"). The lessor is the owner of the Equipment and the District is responsible for repairs and maintenance and other operating expenditures of the Equipment. The original term of the lease is 60 months at a rate of \$6,250 per month, after which the lease automatically extends to a month-to-month term at the rate of \$5,500 per month. The 60 month term began on October 1, 2015. The District accrued lease costs of \$66,000 for the fiscal year ended May 31, 2023. At this date, the District had prepaid \$5,500 for one month's lease payment and \$6,250 as a deposit for the last month's lease payment.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

On June 20, 2018, the District and AUC Group, L.P. entered into an agreement for the lease of Additional Expansion Equipment (the "Additional Equipment") for the Plant. The lessor is the owner of the Additional Equipment and the District is responsible for repairs and maintenance and other operating expenditures of the Additional Equipment. The original term of the lease is 60 months at a rate of \$1,150 per month, after which the lease automatically extends to a month-to-month term at the rate of \$800 per month. The 60 month term began on March 1, 2019. The District accrued lease costs of \$13,800 for the fiscal year ended May 31, 2023. At this date, the District had prepaid \$1,150 for one month's lease payment and \$1,150 as a deposit for the last month's lease payment.

NOTE 10: REGIONAL WATER AUTHORITY

The West Harris County Regional Water Authority (the "Authority") was created by House Bill 1842, Acts of the 77th Legislature, Regular Session 2001. The Authority is a political subdivision of the State of Texas, governed by an elected nine member Board of Directors. The Authority is empowered to, among other powers, "acquire or develop surface water and groundwater supplies from sources inside of or outside of the boundaries of the authority and may conserve, store, transport, treat, purify, distribute, sell and deliver water to persons, corporations, municipal corporations, political subdivisions of the state, and others, inside of and outside of the boundaries of the authority." The Authority is also empowered to "establish fees and charges as necessary to enable the authority to fulfill the authority's regulatory obligations." In accordance with this provision, as of May 31, 2023, the Authority had established a well pumpage fee of \$3.95 per 1,000 gallons of water pumped from each regulated well and a surface water usage fee of \$4.35 per 1,000 gallons of surface water purchased from the Authority. The surface water fees payable by the District to the Authority for the fiscal year ended May 31, 2023, were \$668,174. The District billed its customers \$645,737 during the fiscal year to pay for the fees charged by the Authority.
