Independent Auditor's Report

Board of Directors
Waller County Municipal Utility District No. 37
Waller County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Waller County Municipal Utility District No. 37 (the "District"), as of and for the year ended April 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Waller County Municipal Utility District No. 37, as of April 30, 2025, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 3 to the financial statements, the District implemented GASB Implementation Guide 2021-1, Question 5.1 during the current fiscal year. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Board of Directors
Waller County Municipal Utility District No. 37
Waller County, Texas***

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Board of Directors
Waller County Municipal Utility District No. 37
Waller County, Texas***

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Texas Supplementary Information schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Texas Supplementary Information schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Waller County Municipal Utility District No. 37
Management's Discussion and Analysis
April 30, 2025

Using this Annual Report

This section of the financial report of Waller County Municipal Utility District No. 37 (the "District") provides a narrative discussion and analysis of the financial activities of the District for the fiscal year ended April 30, 2025. This analysis should be read in conjunction with the independent auditor's report and the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The District's basic financial statements;
- Notes to the basic financial statements, which provide additional information essential to a full understanding of the data provided in the financial statements;
- Supplementary information required by the Governmental Accounting Standards Board (GASB) concerning the District's budget; and
- Other Texas supplementary information required by the District's state oversight agency, the Texas Commission on Environmental Quality (TCEQ).

Overview of the Financial Statements

The District prepares its basic financial statements using a format that combines fund financial statements and government-wide statements onto one financial statement. The combined statements are the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. Each statement contains an adjustments column which quantifies the differences between the government-wide and fund level statements. Additional details of the adjustments are provided in Note 2 to the basic financial statements.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District, both long-term and short-term. The District's government-wide financial statements consist of the *Statement of Net Position* and the *Statement of Activities*, which are prepared using the accrual basis of accounting. The *Statement of Net Position* includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual reported as net position. Over time, changes in net position may provide a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

Accounting standards establish three components of net position. The net investment in capital assets component represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets. Resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The restricted component of net position consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties. The unrestricted component of net position represents resources not included in the other components.

Waller County Municipal Utility District No. 37
Management's Discussion and Analysis
April 30, 2025

The *Statement of Activities* reports how the District's net position has changed during the fiscal year. All revenues and expenses are included on this statement, regardless of whether cash has been received or paid.

Fund Financial Statements

The fund financial statements include the *Governmental Funds Balance Sheet* and the *Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. The focus of fund financial statements is on specific activities of the District rather than the District as a whole, reported using modified accrual accounting. These statements report on the District's use of available financial resources and the balances of available financial resources at the end of the year. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties, governmental statutes or regulations.

For further discussion on the government-wide and fund financial statements, please refer to Note 1 in the financial statements.

Financial Analysis of the District as a Whole

The District's net position at April 30, 2025, was negative \$16,523,430. This amount is negative primarily because the District incurs debt to construct public roads which it conveys to the Waller County. A comparative summary of the District's overall financial position, as of April 30, 2025 and 2024, is as follows:

	2025	2024
Current and other assets	\$ 4,841,666	\$ 1,946,547
Capital assets	21,118,713	19,661,288
Total assets	<u>25,960,379</u>	<u>21,607,835</u>
Current liabilities	4,601,845	6,907,276
Long-term liabilities	37,881,964	27,102,426
Total liabilities	<u>42,483,809</u>	<u>34,009,702</u>
Net position		
Net investment in capital assets	(5,694,038)	(2,790,033)
Restricted	1,839,834	390,010
Unrestricted	(12,669,226)	(10,001,844)
Total net position	<u>\$ (16,523,430)</u>	<u>\$ (12,401,867)</u>

During the current fiscal year, the District implemented GASB Implementation Guide ("GASBIG") 2021-1, Question 5.1, which requires the capitalization of a group of individual assets that are below the capitalization threshold when the cost of the acquisition of the assets in the aggregate is significant. In accordance with this standard, the District recognized, as infrastructure capital assets, water meters that were previously expensed in prior fiscal years, net of related accumulated depreciation, as of the beginning of the current fiscal year. Prior year data has not been restated to include values for these

Waller County Municipal Utility District No. 37
Management's Discussion and Analysis
April 30, 2025

infrastructure assets and, as a result, the presentation of prior year data as it relates to these assets is not consistent with the current year presentation (see Notes 3 and 6).

The total net position of the District decreased during the current fiscal year by \$4,698,095. A comparative summary of the District's *Statement of Activities* for the past two fiscal years is as follows:

	2025	2024
Revenues		
Property taxes, penalties and interest	\$ 4,118,632	\$ 1,445,487
Water and sewer service	1,400,380	789,041
Other	671,736	1,429,149
Total revenues	<u>6,190,748</u>	<u>3,663,677</u>
Expenses		
Current service operations	996,608	1,365,757
Debt interest and fees	1,191,029	448,903
Developer interest	1,184,943	563,150
Debt issuance costs	1,618,916	983,014
Intergovernmental	3,195,266	1,771,246
Depreciation	776,781	634,099
Total expenses	<u>8,963,543</u>	<u>5,766,169</u>
Change in net position before other item	(2,772,795)	(2,102,492)
Other item		
Transfers to other governments	<u>(1,925,300)</u>	<u>(1,229,616)</u>
Change in net position	(4,698,095)	(3,332,108)
Net position, beginning of year (2025 restated)	<u>(11,825,335)</u>	<u>(9,069,759)</u>
Net position, end of year	<u>\$ (16,523,430)</u>	<u>\$ (12,401,867)</u>

As previously noted, the District implemented GASBIG 2021-1, Question 5.1 during the current year and, as a result, has restated its beginning net position for the current fiscal year. Prior year data is not consistent with current year data due to the recognition of certain capital assets and the related accumulated depreciation at the beginning of the current fiscal year (See Notes 3 and 6).

Financial Analysis of the District's Funds

The District's combined fund balances, as of April 30, 2025, were \$3,807,161, which consists of \$1,117,241 in the General Fund, \$2,053,646 in the Debt Service Fund, and \$636,274 in the Capital Projects Fund.

Waller County Municipal Utility District No. 37
Management's Discussion and Analysis
April 30, 2025

General Fund

A comparative summary of the General Fund's financial position as of April 30, 2025 and 2024, is as follows:

	2025	2024
Total assets	<u>\$ 2,083,812</u>	<u>\$ 1,327,307</u>
Total liabilities	\$ 945,099	\$ 562,984
Total deferred inflows	21,472	11,360
Total fund balance	<u>1,117,241</u>	<u>752,963</u>
Total liabilities, deferred inflows and fund balance	<u>\$ 2,083,812</u>	<u>\$ 1,327,307</u>

A comparative summary of the General Fund's activities for the current and prior fiscal year is as follows:

	2025	2024
Total revenues	\$ 3,176,703	\$ 3,019,690
Total expenditures	<u>(2,807,425)</u>	<u>(2,443,860)</u>
Revenues over expenditures	369,278	575,830
Other changes in fund balance	<u>(5,000)</u>	<u>61,000</u>
Net change in fund balance	<u>\$ 364,278</u>	<u>\$ 636,830</u>

The District manages its activities with the objectives of ensuring that expenditures will be adequately covered by revenues each year and that an adequate fund balance is maintained. The District's primary financial resources in the General Fund are from a property tax levy, the provision of water and sewer services to customers within the District and tap connection fees charged to homebuilders in the District. Financial resources are influenced by a variety of factors each year:

- Property tax revenues are dependent upon assessed values in the District and the maintenance tax rate set by the District. While the District decreased its maintenance tax levy, property tax revenues increased because assessed values in the District increased from the prior year.
- Water and sewer revenues are dependent upon customer usage, which fluctuates from year to year as a result of factors beyond the District's control.
- Tap connection fees fluctuate with homebuilding activity within the District.

During the current fiscal year, the General Fund transferred \$5,000 to the Capital Projects Fund to fund the remaining developer reimbursements and professional fees not covered by the Series 2024 Road Bonds proceeds. During the prior fiscal year, the Capital Projects Fund transferred \$61,000 to the General Fund to reimburse bond application costs incurred in the prior fiscal year.

Waller County Municipal Utility District No. 37
Management's Discussion and Analysis
April 30, 2025

Debt Service Fund

A comparative summary of the Debt Service Fund's financial position as of April 30, 2025 and 2024, is as follows:

	2025	2024
Total assets	<u>\$ 2,121,580</u>	<u>\$ 609,302</u>
Total liabilities	\$ 6,283	\$ -
Total deferred inflows	61,651	10,380
Total fund balance	<u>2,053,646</u>	<u>598,922</u>
Total liabilities, deferred inflows and fund balance	<u>\$ 2,121,580</u>	<u>\$ 609,302</u>

A comparative summary of the Debt Service Fund's activities for the current and prior fiscal year is as follows:

	2025	2024
Total revenues	\$ 2,946,249	\$ 616,267
Total expenditures	<u>(2,302,413)</u>	<u>(770,261)</u>
Revenues over/(under) expenditures	643,836	(153,994)
Other changes in fund balance	810,888	752,916
Net change in fund balance	<u>\$ 1,454,724</u>	<u>\$ 598,922</u>

The District's financial resources in the Debt Service Fund in both the current and prior fiscal year are from property tax revenues and capitalized interest from the sale of bonds. The difference between these financial resources and debt service requirements resulted in an increase in fund balance each year. It is important to note that the District sets its annual debt service tax rate as recommended by its financial advisor, who monitors projected cash flows in the Debt Service Fund to ensure that the District will be able to meet its future debt service requirements.

Capital Projects Fund

A comparative summary of the Capital Projects Fund's financial position as of April 30, 2025 and 2024, is as follows:

	2025	2024
Total assets	<u>\$ 636,274</u>	<u>\$ 9,938</u>
Total fund balance	<u>\$ 636,274</u>	<u>\$ 9,938</u>

Waller County Municipal Utility District No. 37
Management's Discussion and Analysis
April 30, 2025

A comparative summary of activities in the Capital Projects Fund for the current and prior fiscal year is as follows:

	2025	2024
Total revenues	\$ 6,411	\$ 5,995
Total expenditures	(14,969,187)	(13,146,634)
Revenues under expenditures	(14,962,776)	(13,140,639)
Other changes in fund balance	15,589,112	13,132,334
Net change in fund balance	\$ 626,336	\$ (8,305)

The District has had considerable capital asset activity in the last two years, which was financed with proceeds from the issuance of its Series 2024 Unlimited Tax Bonds, Series 2024 Unlimited Tax Road Bonds and Series 2024 Bond Anticipation Note in the current fiscal year and proceeds from the issuance of its Series 2023 Unlimited Tax Bonds, Series 2023 Unlimited Tax Road Bonds and Series 2023 Bond Anticipation Note in the prior fiscal year.

General Fund Budgetary Highlights

The Board of Directors adopts an annual unappropriated budget for the General Fund prior to the beginning of each fiscal year. The Board amended the budget during the year to reflect changes in anticipated revenues and expenditures.

Since the District's budget is primarily a planning tool, actual results varied from the budgeted amounts. Actual net change in fund balance was \$101,818 greater than budgeted. The *Budgetary Comparison Schedule* on page 38 of this report provides variance information per financial statement line item.

Capital Assets

The District has entered into financing agreements with its developers for the financing of the construction of capital assets within the District. Developers will be reimbursed from proceeds of future bond issues or other lawfully available funds. These developer funded capital assets are recorded on the District's financial statements upon completion of construction.

Waller County Municipal Utility District No. 37
Management's Discussion and Analysis
April 30, 2025

Capital assets held by the District at April 30, 2025 and 2024, are summarized as follows:

	2025	2024
Capital assets being depreciated		
Infrastructure	\$ 17,373,253	\$ 15,894,099
Landscape improvements	5,574,588	4,734,898
	<u>22,947,841</u>	<u>20,628,997</u>
Less accumulated depreciation		
Infrastructure	(1,313,653)	(730,964)
Landscape improvements	(515,475)	(236,745)
	<u>(1,829,128)</u>	<u>(967,709)</u>
Capital assets, net	<u><u>\$ 21,118,713</u></u>	<u><u>\$ 19,661,288</u></u>

As previously noted, the District implemented GASBIG 2021-1, Question 5.1 during the current year. As a result, prior year data is not consistent with current year data due to the recognition of certain capital assets and the related accumulated depreciation at the beginning of the current fiscal year (See Notes 3 and 6).

Capital asset additions during the current fiscal year include the following:

- Hardscape, landscape and irrigation to serve Sunterra Sections 31 and 32
- Water meters

Additionally, Waller County assumes responsibility (after a one-year maintenance period) for road facilities constructed within the boundaries of the County. Accordingly, these facilities are not considered assets of the District. The estimated value of these assets is recorded as transfers to other governments upon completion of construction. This estimated cost is trued-up when the developers are reimbursed. For the year ended April 30, 2025, capital assets in the amount of \$1,925,300 have been recorded as transfers to other governments in the government-wide statements. Additional information is present in Note 11.

Long-Term Debt and Related Liabilities

As of April 30, 2025, the District owes approximately \$8,756,964 to developers for completed projects. The initial cost of the completed project and related liability is estimated based on actual construction costs plus 10-15% for engineering and other fees and is recorded on the District's financial statements upon completion of construction. The District intends to reimburse the developers from proceeds of future bond issues or other lawfully available funds. The estimated cost of amounts owed to the developer is trued up when the developer is reimbursed.

Waller County Municipal Utility District No. 37
Management's Discussion and Analysis
April 30, 2025

At April 30, 2025 and 2024, the District had total bonded debt outstanding as shown below:

Series	2025	2024
2023	\$ 4,195,000	\$ 4,195,000
2023 Road	5,785,000	5,785,000
2024	11,650,000	
2024 Road	7,705,000	
	<u>\$ 29,335,000</u>	<u>\$ 9,980,000</u>

During the current fiscal year, the District issued \$11,650,000 in unlimited tax bonds and \$7,705,000 in unlimited tax road bonds. At April 30, 2025, the District had \$106,915,000 unlimited tax bonds authorized, but unissued for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems within the District and \$36,828,000 for the refunding of such bonds; \$40,545,000 for parks and recreational facilities and \$12,164,000 for the refunding of such bonds; and \$103,655,000 for road improvements and \$35,144,000 for the refunding of such bonds.

Additionally, during the current fiscal year, the District issued a \$3,165,000 bond anticipation note (BAN) to provide short-term financing for developer reimbursements. The District intends to repay the BAN with proceeds from the issuance of long-term debt. See Note 7 for additional information.

Property Taxes

The District's property tax base increased approximately \$107,994,000 for the 2025 tax year from \$271,728,926 to \$379,722,760, based on certified values. This increase was primarily due to new construction in the District.

Next Year's Budget

In establishing the budget for the next fiscal year, the Board considered various economic factors that may affect the District, most notably projected revenues from property taxes and water/sewer services and the projected cost of operating the District and providing services to customers. A comparison of next fiscal year's budget to current fiscal year actual amounts for the General Fund is as follows:

	2025 Actual	2026 Budget
Total revenues	\$ 3,176,703	\$ 2,769,450
Total expenditures	(2,807,425)	(2,203,011)
Revenues over expenditures	369,278	566,439
Other changes in fund balance	(5,000)	
Net change in fund balance	364,278	566,439
Beginning fund balance	752,963	1,117,241
Ending fund balance	<u>\$ 1,117,241</u>	<u>\$ 1,683,680</u>

Note 1 – Summary of Significant Accounting Policies

The accounting policies of Waller County Municipal Utility District No. 37 (the “District”) conform with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (“GASB”). The following is a summary of the most significant policies:

Creation

The District was organized, created and established pursuant the House Bill No. 4520, 86th Session of the Texas Legislature, Regular Session, codified as Chapter 8047, Texas Special District Local Law Code (The “Act”), effective May 3, 2019, and operates in accordance with Section 52, Article III, and Section 59, Article XVI, of the Texas Constitution, and the Texas Water Code, Chapters 49 and 54. On July 30, 2020 the voters of the District approved a proposition dividing the District into three districts: the District, Harris - Waller Counties Municipal Utility District No. 4 (“MUD 4”) and Harris-Waller Counties Municipal Utility District No. 5 (“MUD 5”). The Board of Directors held its first meeting on August 11, 2020, and the first bonds were issued on August 15, 2023.

The District’s primary activities include construction, maintenance and operation of water, sewer, drainage, and park and recreational facilities. The District has contracted with various consultants to provide services to operate and administer the affairs of the District. The District has no employees, related payroll, or pension costs.

Reporting Entity

The District is a political subdivision of the State of Texas governed by an elected five-member board. The GASB has established the criteria for determining the reporting entity for financial statement reporting purposes. To qualify as a primary government, a government must have a separately elected governing body, be legally separate, and be fiscally independent of other state and local governments, while a component unit is a legally separate government for which the elected officials of a primary government are financially accountable. Fiscal independence implies that the government has the authority to adopt a budget, levy taxes, set rates, and/or issue bonds without approval from other governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statements as component units.

Government-Wide and Fund Financial Statements

Government-wide financial statements display information about the District as a whole. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Interfund activity, if any, has been removed from these statements. These aggregated statements consist of the *Statement of Net Position* and the *Statement of Activities*.

Fund financial statements display information at the individual fund level. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for a specific

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

purpose. Each fund is considered to be a separate accounting entity. Most governments typically have many funds; however, governmental financial statements focus on the most important or “major” funds with non-major funds aggregated in a single column. The District has three governmental funds, which are all considered major funds.

The following is a description of the various funds used by the District:

- The General Fund is used to account for the operations of the District’s water and sewer system and all other financial transactions not reported in other funds. The principal sources of revenue are property taxes and water and sewer service fees. Expenditures include costs associated with the daily operations of the District.
- The Debt Service Fund is used to account for the payment of interest and principal on the District’s general long-term debt. The primary source of revenue for debt service is property taxes. During the current fiscal year, financial resources also included capitalized interest from the sale of bonds. Expenditures include costs incurred in assessing and collecting these taxes.
- The Capital Projects Fund is used to account for the expenditures of bond proceeds for the construction of the District’s water, sewer, drainage and road and park and recreational facilities.

As a special-purpose government engaged in a single governmental program, the District has opted to combine its government-wide and fund financial statements in a columnar format showing an adjustments column for reconciling items between the two.

Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized in the accounting period in which it becomes both available and measurable to finance expenditures of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes, interest earned on investments and income from District operations. Property taxes receivable at the end of the fiscal year are treated as deferred inflows because they are not considered available to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Note 2 further details the adjustments from the governmental fund presentation to the government-wide presentation.

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

Use of Restricted Resources

When both restricted and unrestricted resources are available for use, the District uses restricted resources first, then unrestricted resources as they are needed.

Prepaid Items

Certain payments made by the District reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Receivables from and payables to external parties are reported separately and are not offset, unless a legal right of offset exists. At April 30, 2025, an allowance for uncollectible accounts was not considered necessary.

Interfund Activity

During the course of operations, transactions occur between individual funds. This can include internal transfers, payables and receivables. This activity is combined as internal balances and is eliminated in both the government-wide and fund financial statement presentation.

Capital Assets

Capital assets do not provide financial resources at the fund level, and, therefore, are reported only in the government-wide statements. The District defines capital assets as assets with an initial cost that exceeds the capitalization threshold for the asset class and an estimated useful life in excess of one year. Capital assets that individually are below the capitalization threshold but, in the aggregate, are above the threshold are capitalized. Subsequent replacements of these assets that do not exceed the threshold are not capitalized. The District's capitalization threshold for infrastructure assets is \$50,000. The threshold for subscription-based information technology arrangements (SBITAs) is \$100,000.

Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire the asset on the acquisition date. The District has not capitalized interest incurred during the construction of its capital assets. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Depreciable capital assets, which primarily consist of water, wastewater and drainage facilities, are depreciated using the straight-line method as follows:

<u>Assets</u>	<u>Useful Life</u>
Infrastructure	10-40 years
Landscape improvements	20 years

Deferred Inflows and Outflows of Financial Resources

A deferred inflow of financial resources is the acquisition of resources in one period that is applicable to a future period, while a deferred outflow of financial resources is the consumption of financial resources in one period that is applicable to a future period. A deferred inflow results from the acquisition of an asset without a corresponding revenue or assumption of a liability. A deferred outflow results from the use of an asset without a corresponding expenditure or reduction of a liability.

At the fund level, property taxes receivable not collected within 60 days of fiscal year end do not meet the availability criteria required for revenue recognition and are recorded as deferred inflows of financial resources.

Net Position – Governmental Activities

Governmental accounting standards establish the following three components of net position:

Net investment in capital assets – represents the District’s investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets.

Restricted – consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties.

Unrestricted – resources not included in the other components.

Fund Balances – Governmental Funds

Governmental accounting standards establish the following fund balance classifications:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District’s nonspendable fund balance consists of prepaid items.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. The District’s restricted fund balances consist of unspent bond proceeds in the Capital Projects Fund and property taxes levied for debt service and capitalized interest from the sale of bonds in the Debt Service Fund.

Committed - amounts that can be used only for specific purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District does not have any committed fund balances.

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned - all other spendable amounts in the General Fund.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses/expenditures during the period reported. These estimates include, among others, the collectability of receivables; the useful lives and impairment of capital assets; the value of amounts due to developers; the value of capital assets transferred to the Waller County and the value of capital assets for which the developers have not been fully reimbursed. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

Note 2 – Adjustment from Governmental to Government-wide Basis

Reconciliation of the *Governmental Funds Balance Sheet* to the *Statement of Net Position*

Total fund balance, governmental funds	\$ 3,807,161
--	--------------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.

Historical cost	\$ 22,947,841	
Less accumulated depreciation	<u>(1,829,128)</u>	
		21,118,713

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. The difference consists of:

Accrued interest payable	(275,463)	
Due to developers	(8,756,964)	
Bond anticipation note payable	(3,165,000)	
Bonds payable	<u>(29,335,000)</u>	
		(41,532,427)

Deferred inflows in the fund statements consist of property taxes receivable and related penalties and interest that have been levied and are due, but are not available to pay current period expenditures. These amounts are included in revenues in the government-wide statements.

83,123

Total net position - governmental activities	<u><u>\$ (16,523,430)</u></u>
--	-------------------------------

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

Reconciliation of the *Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances* to the *Statement of Activities*

Net change in fund balances - total governmental funds	\$ 2,445,338
--	--------------

Governmental funds do not report revenues that are not available to pay current obligations. In contrast, such revenues are reported in the <i>Statement of Activities</i> when earned. The difference is for property taxes and related penalties and interest.	61,385
--	--------

Financial reporting for capital assets varies significantly between the fund statements and the government-wide statements. Reporting at the fund level focuses on the impact of transactions on financial resources (i.e., cash), while reporting at the government-wide level seeks to allocate the cost of the acquisition of capital assets over their useful lives and to measure the economic impact of developer financing of capital assets used by the District or conveyed to other governmental entities. Differences during the current fiscal year are for the following:

Capital outlays	\$ 11,948,436	
Transfers to other governments	(1,925,300)	
Depreciation expense	(776,781)	
		9,246,355

Financial reporting for certain obligations varies between the fund statements and the government-wide statements. At the fund level, the focus is on increases and decreases of financial resources as debt is issued and repaid. At the government-wide level, the focus is on measuring and reporting on changes in the District's obligation to repay liabilities in the future. Differences during the current fiscal year are for the following:

Issuance of long-term debt	(19,355,000)	
Issuance of bond anticipation note	(3,165,000)	
Repayment of bond anticipation note	6,125,000	
Interest expense accrual	(56,173)	
		(16,451,173)

Change in net position of governmental activities	\$ (4,698,095)
---	----------------------------

Note 3 – Implementation of New Accounting Guidance

During the current fiscal year, the District implemented GASB Implementation Guide (“GASBIG”) 2021-1, Question 5.1, which requires the capitalization of the acquisition of a group of individual

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

capital assets whose individual acquisition costs are less than the capitalization threshold when the cost of the acquisition of the assets in the aggregate is significant. Under this new guidance, the District's acquisition of water meters that exceeds the capitalization threshold in the aggregate should be recorded as Capital outlays instead of Contracted services in the *Statement of Revenues, Expenditures and Changes in Fund Balances*. On the government-wide statements, the acquisition of water meters should not be recorded as an expense on the *Statement of Activities* but should be recorded as capital assets on the *Statement of Net Position*.

GASBIG 2021-1, Question 5.1 is required to be retroactively implemented, which means the District is required to record the acquisition of water meters that were expensed in previous fiscal years as infrastructure capital assets and to record the related accumulated depreciation at the beginning of the current fiscal year. Accordingly, the District has recorded a restatement to recognize \$576,532 in depreciable capital assets, which were measured at net book value (i.e., cost less accumulated depreciation) as of the beginning of the current fiscal year and increased its beginning net position by the same amount. Prior year amounts in the Management's Discussion and Analysis and supplementary schedules were not restated.

Note 4 – Deposits and Investments

Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits (i.e. cash) is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. The *Public Funds Collateral Act* (Chapter 2257, Texas Government Code) requires that all of the District's deposits with financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third-party custodian. The act further specifies the types of securities that can be used as collateral. The District's written investment policy establishes additional requirements for collateralization of deposits.

Investments

The District is authorized by the *Public Funds Investment Act* (Chapter 2256, Texas Government Code) to invest in the following: (1) obligations, including letters of credit, of the United States or its agencies and instrumentalities, including Federal Home Loan Banks, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies or instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) certain insured or collateralized certificates of deposit and share certificates, (8) certain fully collateralized repurchase agreements, (9) bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

The District has adopted a written investment policy to establish the principles by which the District's investment program should be managed. This policy further restricts the types of investments in which the District may invest.

As of April 30, 2025, the District's investments consist of the following:

Type	Fund	Carrying Value	Rating	Weighted Average Maturity
TexSTAR	General	\$ 1,424,574		
	Debt Service	2,003,085		
	Capital Projects	63,923		
Total		<u>\$ 3,491,582</u>	AAAm	40 days

TexSTAR

The Texas Short Term Asset Reserve fund ("TexSTAR") is managed by Hilltop Securities, and J.P. Morgan Investment Management, Inc. Hilltop Securities provides participant and marketing services while J.P. Morgan provides investment management services. Custodial and depository services are provided by J.P. Morgan Chase Bank N.A. or its subsidiary.

TexSTAR uses amortized cost rather than fair value to report net assets to compute share price. Accordingly, investments in TexSTAR are stated at amortized cost which approximates fair value. Investments in TexSTAR may be withdrawn via wire transfer on a same day basis, as long as the transaction is executed by 4 p.m. ACH withdrawals made by 4 p.m. will settle on the next business day.

Investment Credit and Interest Rate Risk

Investment credit risk is the risk that the investor may not recover the value of an investment from the issuer, while interest rate risk is the risk that the value of an investment will be adversely affected by changes in interest rates. The District's investment policies do not address investment credit and interest rate risk beyond the rating and maturity restrictions established by state statutes.

Note 5 – Interfund Balances and Transactions

Amounts due to/from other funds at April 30, 2025, consist of the following:

Receivable Fund	Payable Fund	Amounts	Purpose
General Fund	Debt Service Fund	\$ 28,679	Maintenance tax collections not remitted as of year end
General Fund	Capital Projects Fund	79,390	Bond application fees paid by the General Fund

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

Amounts reported as internal balances between funds are considered temporary balances and will be paid during the following fiscal year.

During the current fiscal year, the General Fund transferred \$5,000 to the Capital Projects Fund to fund the remaining developer reimbursements and professional fees not covered by the Series 2024 Road Bonds proceeds.

Note 6 – Capital Assets

A summary of changes in capital assets, for the year ended April 30, 2025, is as follows:

	Beginning Balances	Additions/ Adjustments	Ending Balances
Capital assets being depreciated			
Infrastructure	\$ 16,555,269	\$ 817,984	\$ 17,373,253
Lanscaping improvements	4,734,898	839,690	5,574,588
	<u>21,290,167</u>	<u>1,657,674</u>	<u>22,947,841</u>
Less accumulated depreciation			
Infrastructure	(815,602)	(498,051)	(1,313,653)
Landscaping improvements	(236,745)	(278,730)	(515,475)
	<u>(1,052,347)</u>	<u>(776,781)</u>	<u>(1,829,128)</u>
Capital assets, net	<u>\$ 20,237,820</u>	<u>\$ 880,893</u>	<u>\$ 21,118,713</u>

Depreciation expense for the current fiscal year was \$776,781.

As discussed in Note 3, the District recorded a restatement to capitalize the acquisition of certain capital assets and accumulated depreciation at the beginning of the current fiscal year. In previous years, these costs were expensed. As a result, beginning balances for infrastructure capital assets in the current fiscal year are not consistent with prior year data.

Note 7 – Bond Anticipation Note

The District uses a bond anticipation note (“BAN”) to provide short-term financing for reimbursements to its developers. Despite its short-term nature, a BAN is not recorded as a fund liability, since it will not be repaid from current financial resources and will be repaid through the issuance of long-term debt or another BAN. It is, however, recorded as a liability at the government-wide level.

At the beginning of the fiscal year, the District had a BAN outstanding in the amount of \$6,125,000. This BAN was repaid on September 12, 2024, with proceeds from the issuance of the District’s Series 2024 Unlimited Tax Bonds.

On December 19, 2024, the District issued a \$3,165,000 BAN with an interest rate of 4.95%, which is due on December 18, 2025.

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

The effect of these transactions on the District's short-term obligations are as follows:

Beginning balance	\$ 6,125,000
Amounts borrowed	3,165,000
Amounts repaid	<u>(6,125,000)</u>
Ending balance	<u><u>\$ 3,165,000</u></u>

Note 8 – Due to Developers

The District has entered into financing agreements with its developers for the financing of the construction of water, sewer, drainage, and park and recreational facilities and road improvements. Under the agreements, the developers will construct facilities on behalf of the District. The developers will be reimbursed from proceeds of future bond issues or other lawfully available funds, subject to approval by TCEQ, as applicable. The District does not record the capital asset and related liability on the government-wide statements until construction of the facilities is complete. The initial cost is estimated based on construction costs plus 10-15% for engineering and other fees. Estimates are trued up when the developers are reimbursed.

Changes in the estimated amounts due to developers during the fiscal year are as follows:

Due to developers, beginning of year	\$ 17,122,426
Developer reimbursements	(11,760,027)
Developer funded construction and adjustments	<u>3,394,565</u>
Due to developers, end of year	<u><u>\$ 8,756,964</u></u>

Note 9 – Long-Term Debt

Long-term debt is comprised of the following:

Bonds payable	<u><u>\$ 29,335,000</u></u>
Due within one year	<u><u>\$ 210,000</u></u>

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

The District's bonds payable at April 30, 2025, consists of unlimited tax bonds as follows:

Series	Amounts Outstanding	Original Issue	Interest Rates	Maturity Date, Serially, Beginning/ Ending	Interest Payment Dates	Call Dates
2023	\$ 4,195,000	\$ 4,195,000	4.00% - 6.50%	September 1, 2025/2049	September 1, March 1	September 1, 2030
2023 Road	5,785,000	5,785,000	4.75% - 7.25%	September 1, 2025/2049	September 1, March 1	September 1, 2030
2024	11,650,000	11,650,000	4.00% - 6.50%	September 1, 2026/2050	September 1, March 1	September 1, 2030
2024 Road	7,705,000	7,705,000	4.00%	September 1, 2026/2050	September 1, March 1	September 1, 2030
	<u>\$ 29,335,000</u>					

Payments of principal and interest on all series of bonds are to be provided from taxes levied on all properties within the District. Investment income realized by the Debt Service Fund from investment of idle funds will be used to pay outstanding bond principal and interest. The District is in compliance with the terms of its bond resolutions.

At April 30, 2025, the District had authorized but unissued bonds in the amount of \$106,915,000 for water, sewer and drainage facilities and \$36,828,000 for the refunding of such bonds; \$40,545,000 for parks and recreational facilities and \$12,164,000 for the refunding of such bonds; and \$103,655,000 for road improvements and \$35,144,000 for the refunding of such bonds.

On September 12, 2024, the District issued its \$11,650,000 Series 2024 Unlimited Tax Bonds at a net effective interest rate of 4.265558%. Proceeds of the bonds were used to (1) reimburse developers for the cost of capital assets constructed within the District plus interest expense at the net effective interest rate of the bonds; (2) to repay a \$6,125,000 BAN issued in the previous fiscal year; and (3) to pay capitalized interest into the Debt Service Fund.

Additionally, on October 10, 2024, the District issued its \$7,705,000 Series 2024 Unlimited Tax Road Bonds at a net effective interest rate of 4.179104%. Proceeds of the bonds were used (1) to reimburse developers for the cost of roads constructed within the District and the acquisition of land for certain District facilities, (2) to pay developer expense at the net effective interest rate of the bonds and (3) to pay capitalized interest into the Debt Service Fund.

The change in the District's long-term debt during the year is as follows:

Bonds payable, beginning of year	\$ 9,980,000
Bonds issued	19,355,000
Bonds payable, end of year	<u>\$ 29,335,000</u>

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

As of April 30, 2025, annual debt service requirements on bonds outstanding are as follows:

Year	Principal	Interest	Totals
2026	\$ 210,000	\$ 1,305,782	\$ 1,515,782
2027	655,000	1,279,162	1,934,162

	<u>\$ 29,335,000</u>	<u>\$ 19,387,234</u>	<u>\$ 48,722,234</u>

Note 10 – Property Taxes

On May 11, 2021, the voters of the District authorized the District’s Board of Directors to levy taxes annually for use in financing general operations limited to \$1.50 per \$100 of assessed value. The District’s bond resolutions require that property taxes be levied for use in paying interest and principal on long-term debt and for use in paying the cost of assessing and collecting taxes. Taxes levied to finance debt service requirements on long-term debt are without limitation as to rate or amount.

All property values and exempt status, if any, are determined by the Waller County Appraisal District. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

Property taxes are collected based on rates adopted in the year of the levy. The District's 2025 fiscal year was financed through the 2024 tax levy, pursuant to which the District levied property taxes of \$1.50 per \$100 of assessed value, of which \$0.43 was allocated to maintenance and operations, \$0.27 was allocated to debt service, \$0.56 was allocated to contract tax and \$0.24 was allocated to road debt service. The resulting tax levy was \$4,075,934 on the adjusted taxable value of \$271,728,926.

Property taxes receivable, at April 30, 2025, consisted of the following:

Current year taxes receivable	\$ 74,873
Prior years taxes receivable	11
	74,884
Penalty and interest receivable	8,239
Property taxes receivable	<u>\$ 83,123</u>

Note 11 – Transfers to Other Governments

Waller County assumes responsibility for the maintenance of public roads constructed within the county limits. Accordingly, road facilities are considered to be capital assets of Waller County, not the District. The estimated cost of each road project is recorded as a transfer to other government upon completion of construction. This cost is trued-up when the developers are subsequently reimbursed. For the year ended April 30, 2025, the District recorded transfers to other governments in the amount of \$1,925,300 for right-of-way land acquisitions transferred to the County and adjustments to the value of road facilities completed in previous fiscal years.

Note 12 – Master District

On November 17, 2020, (amended effective February 1, 2021) the District entered into a contract for Financing, Operation, and Maintenance of Regional Facilities (the "Contract") with Harris – Waller Counties MUD No. 4 (the "Master District") whereby the Master District agrees to provide or cause to be provided the regional water supply and distribution facilities and the wastewater collection, treatment and disposal facilities, drainage, and road facilities necessary to serve all participant districts located within the Master District's service area. The term of the Contract is 40 years.

Operating and Maintenance Reserve

The Contract authorizes the establishment of an operating and maintenance reserve by the Master District equivalent to three months' operating and maintenance expenses, as set forth in the Master District's annual budget. Prior to commencement of services, the Master District shall bill the District an amount calculated by multiplying the monthly fee (as defined below) by three in order to provide the initial funding required to establish the reserve. The Master District shall adjust the reserve as needed, not less than annually. As of April 30, 2025, the District has paid \$60,925 for an operating reserve.

Waller County Municipal Utility District No. 37
Notes to Financial Statements
April 30, 2025

Monthly Connection Fees for Operating Expenses

Upon commencement of services, the Master District will charge each participating district a monthly fee for Master District operating and maintenance expenses based on the unit cost per connection multiplied by the number of equivalent single-family connections (“ESFCs”) reserved to the District.

Master District Debt

The Master District is authorized to issue contract revenue bonds for the purpose of acquiring and constructing regional water, wastewater, drainage, and road facilities needed to provide services to all participating districts in the service area. The District shall contribute annually to the payment of debt service requirements based on its annual pro rata share of the total certified assessed valuation of all participating districts. For the 2024 tax year, the District’s pro rata share is 25.71%. The District levied a contract tax rate of \$0.56 per \$100 of assessed valuation to pay for its pro rata share of Master District debt service requirements. As of April 30, 2025, the Master District has \$84,915,000 in contract revenue bonds outstanding.

Summary of Charges

For the fiscal year ended April 30, 2025, the District incurred the following costs pursuant to the Contract with the Master District:

- Monthly connection fees for operating expenses in the amount of \$1,527,657;
- Monthly charges for mowing expenses in the amount of \$289,617; and
- Contractual obligations for Master District debt service requirements in the amount of \$1,377,992.

Note 13 – Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; and personal injuries. The risk of loss is covered by commercial insurance. There have been no significant reductions in insurance coverage from the prior year. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

Note 14 – Subsequent Event

On July 10, 2025, the District approved the sale of its Series 2025 Unlimited Tax Bonds in the amount of \$5,145,000. Proceeds from the bonds will be used to reimburse the District’s developers for infrastructure improvements in the District.
