Independent Auditor's Report

Board of Directors

Fulshear Municipal Utility District No. 2

Fort Bend County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Fulshear Municipal Utility District No. 2 (the "District"), as of and for the year ended February 28, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Fulshear Municipal Utility District No. 2, as of February 28, 2025, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied

***Board of Directors
Fulshear Municipal Utility District No. 2
Fort Bend County, Texas***

certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Texas Supplementary Information schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Texas Supplementary Information schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

***Fulshear Municipal Utility District No. 2
Management's Discussion and Analysis
February 28, 2025***

Using this Annual Report

This section of the financial report of Fulshear Municipal Utility District No. 2 (the "District") provides a narrative discussion and analysis of the financial activities of the District for the fiscal year ended February 28, 2025. This analysis should be read in conjunction with the independent auditor's report and the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The District's basic financial statements;
- Notes to the basic financial statements, which provide additional information essential to a full understanding of the data provided in the financial statements;
- Supplementary information required by the Governmental Accounting Standards Board (GASB) concerning the District's budget; and
- Other Texas supplementary information required by the District's state oversight agency, the Texas Commission on Environmental Quality (TCEQ).

Overview of the Financial Statements

The District prepares its basic financial statements using a format that combines fund financial statements and government-wide statements onto one financial statement. The combined statements are the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. Each statement contains an adjustments column which quantifies the differences between the government-wide and fund level statements. Additional details of the adjustments are provided in Note 2 to the basic financial statements.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District, both long-term and short-term. The District's government-wide financial statements consist of the *Statement of Net Position* and the *Statement of Activities*, which are prepared using the accrual basis of accounting. The *Statement of Net Position* includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual reported as net position. Over time, changes in net position may provide a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

Accounting standards establish three components of net position. The net investment in capital assets component represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets. Resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The restricted component of net position consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties. The unrestricted component of net position represents resources not included in the other components.

***Fulshear Municipal Utility District No. 2
Management's Discussion and Analysis
February 28, 2025***

The *Statement of Activities* reports how the District's net position has changed during the fiscal year. All revenues and expenses are included on this statement, regardless of whether cash has been received or paid.

Fund Financial Statements

The fund financial statements include the *Governmental Funds Balance Sheet* and the *Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. The focus of fund financial statements is on specific activities of the District rather than the District as a whole, reported using modified accrual accounting. These statements report on the District's use of available financial resources and the balances of available financial resources at the end of the year. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties, governmental statutes or regulations.

For further discussion on the government-wide and fund financial statements, please refer to Note 1 in the financial statements.

Financial Analysis of the District as a Whole

The District's net position at February 28, 2025, was negative \$17,606,184. The District's net position is negative because the District incurs debt to construct water, sewer, and drainage facilities and road improvements which it conveys to the City of Fulshear. A comparative summary of the District's overall financial position, as of February 28, 2025 and February 29, 2024, is as follows:

	2025	2024
Current and other assets	\$ 4,712,817	\$ 3,386,090
Capital assets	4,945,145	3,365,168
Total assets	<u>9,657,962</u>	<u>6,751,258</u>
Current liabilities	562,308	523,753

Net investment in capital assets	(2,467,881)	(1,646,258)
Restricted	1,907,013	1,529,688
Unrestricted	(17,045,316)	(16,693,197)
Total net position	<u>\$ (17,606,184)</u>	<u>\$ (16,809,767)</u>

***Fulshear Municipal Utility District No. 2
Management's Discussion and Analysis
February 28, 2025***

The total net position of the District decreased during the current fiscal year by \$796,417. A comparative summary of the District's *Statement of Activities* for the past two fiscal years is as follows:

	2025	2024
Revenues		
Property taxes, penalties and interest	\$ 2,242,320	\$ 1,868,135
Other	131,091	86,427
Total revenues	<u>2,373,411</u>	<u>1,954,562</u>
Expenses		
Operating and administrative	405,347	376,758
Debt interest and fees	922,016	404,857
Developer interest	647,374	1,481,181
Debt issuance costs	611,918	1,064,920
Depreciation and amortization	256,891	165,048
Total expenses	<u>2,843,546</u>	<u>3,492,764</u>
Change in net position before other item	(470,135)	(1,538,202)
Other item		
Transfers to other governments	<u>(326,282)</u>	<u>(2,545,992)</u>
Change in net position	(796,417)	(4,084,194)
Net position, beginning of year	(16,809,767)	(12,725,573)
Net position, end of year	<u><u>\$ (17,606,184)</u></u>	<u><u>\$ (16,809,767)</u></u>

Financial Analysis of the District's Funds

The District's combined fund balances, as of February 28, 2025, were \$4,440,578, which consists of \$2,063,613 in the General Fund, \$2,176,473 in the Debt Service Fund, and \$200,492 in the Capital Projects Fund.

General Fund

A comparative summary of the General Fund's financial position as of February 28, 2025 and February 29, 2024, is as follows:

	2025	2024
Total assets	<u><u>\$ 2,158,539</u></u>	<u><u>\$ 1,612,443</u></u>
Total liabilities	\$ 15,535	\$ 70,956
Total deferred inflows	79,391	150,746
Total fund balance	<u>2,063,613</u>	<u>1,390,741</u>
Total liabilities, deferred inflows and fund balance	<u><u>\$ 2,158,539</u></u>	<u><u>\$ 1,612,443</u></u>

***Fulshear Municipal Utility District No. 2
Management's Discussion and Analysis
February 28, 2025***

A comparative summary of the General Fund's activities for the current and prior fiscal year is as follows:

	2025	2024
Total revenues	\$ 847,904	\$ 910,963
Total expenditures	(175,032)	(826,905)
Revenues over expenditures	<u>\$ 672,872</u>	<u>\$ 84,058</u>

The District manages its activities with the objectives of ensuring that expenditures will be adequately covered by revenues each year and that an adequate fund balance is maintained. The District's primary financial resources in the General Fund are from a property tax levy, which dependent upon assessed values in the District and the maintenance tax rate set by the District. While assessed values in the District increased from the prior year, property tax revenues decreased because the District decreased the maintenance component of the levy.

Debt Service Fund

A comparative summary of the Debt Service Fund's financial position as of February 28, 2025 and February 29, 2024, is as follows:

	2025	2024
Total assets	<u>\$ 2,353,786</u>	<u>\$ 1,730,816</u>
Total liabilities	\$ 18,240	\$ 43,124
Total deferred inflows	159,073	158,004
Total fund balance	<u>2,176,473</u>	<u>1,529,688</u>
Total liabilities, deferred inflows and fund balance	<u>\$ 2,353,786</u>	<u>\$ 1,730,816</u>

A comparative summary of the Debt Service Fund's activities for the current and prior fiscal year is as follows:

	2025	2024
Total revenues	\$ 1,588,671	\$ 822,236
Total expenditures	(941,886)	(286,180)
Revenues over expenditures	646,785	536,056
Other changes in fund balance		438,090
Net change in fund balance	<u>\$ 646,785</u>	<u>\$ 974,146</u>

Financial resources in the Debt Service Fund in both the current and prior fiscal year are from property tax revenues. In the prior fiscal year, the District also received capitalized interest from the sale of bonds. The difference between these financial resources and debt service requirements resulted in an increase in fund balance each year. It is important to note that the District sets its annual debt service tax rate as recommended by its financial advisor, who monitors projected cash flows in the Debt Service Fund to ensure that the District will be able to meet its future debt service requirements.

***Fulshear Municipal Utility District No. 2
Management's Discussion and Analysis
February 28, 2025***

Capital Projects Fund

A comparative summary of the Capital Projects Fund's financial position as of February 28, 2025 and February 29, 2024, is as follows:

	2025	2024
Total assets	\$ 200,492	\$ 42,831
Total fund balance	\$ 200,492	\$ 42,831

A comparative summary of activities in the Capital Projects Fund for the current and prior fiscal year is as follows:

	2025	2024
Total revenues	\$ 7,121	\$ 3,781
Total expenditures	(7,039,460)	(12,912,860)
Revenues under expenditures	(7,032,339)	(12,909,079)
Other changes in fund balance	7,190,000	12,951,910
Net change in fund balance	\$ 157,661	\$ 42,831

The District has had considerable capital asset activity in the last two fiscal years, which was financed with proceeds from the issuance of its Series 2024 Unlimited Tax Bonds and Series 2024A Unlimited Tax Park Bonds in the current fiscal year and the sale of Series 2023 Unlimited Tax Bonds and Series 2023A Unlimited Tax Road Bonds in the prior fiscal year.

General Fund Budgetary Highlights

The Board of Directors adopts an annual unappropriated budget for the General Fund prior to the beginning of each fiscal year. The Board did not amend the budget during the fiscal year.

Since the District's budget is primarily a planning tool, actual results varied from the budgeted amounts. Actual net change in fund balance was \$82,401 less than budgeted. The *Budgetary Comparison Schedule* on page 36 of this report provides variance information per financial statement line item.

Capital Assets

The District has entered into financing agreements with its developer for the financing of the construction of capital assets within the District. The developer will be reimbursed from proceeds of future bond issues or other lawfully available funds. These developer funded capital assets are recorded on the District's financial statements upon completion of construction.

***Fulshear Municipal Utility District No. 2
Management's Discussion and Analysis
February 28, 2025***

Capital assets held by the District at February 28, 2025 and February 29, 2024, are summarized as follows:

	2025	2024
Capital assets not being depreciated		
Land and improvements	\$ 719,329	\$ 719,329
Capital assets being depreciated/amortized		
Landscaping improvements	4,727,968	2,891,100
Impact fees	717,277	717,277
	5,445,245	3,608,377
Less accumulated depreciation/amortization		
Landscaping improvements	(1,178,443)	(942,045)
Impact fees	(40,986)	(20,493)
	(1,219,429)	(962,538)
Depreciable capital assets, net	4,225,816	2,645,839
Capital assets, net	\$ 4,945,145	\$ 3,365,168

Capital asset additions during the current fiscal year include landscaping improvements at Fulshear Run Sections 4, 5, and 6. It should be noted that this addition was constructed by the developer in previous years.

During the current fiscal year, the District revised its estimate of the amounts due to developer for certain capital assets and adjusted the values of those assets accordingly.

The developer and the City of Fulshear (the "City") have entered into an agreement which obligates the developer to construct water, sewer, and drainage facilities, and road improvements to serve the District and when completed, to convey title to the facilities to the City. The values of these assets are recorded as transfers to other governments upon completion of construction and trued-up when the developer is reimbursed. Detention facilities and certain other capital assets are retained by the District. For the year ended February 28, 2025, capital assets in the amount of \$326,282 have been recorded as transfers to other governments in the government-wide statements. See Note 11 for additional information.

Long-Term Debt and Related Liabilities

As of February 28, 2025, the District owes approximately \$2,091,838 to its developer for completed projects and operating advances. The initial cost of the completed project and related liability is estimated based on actual construction costs plus 10-15% for engineering and other fees and is recorded on the District's financial statements upon completion of construction. The District intends to reimburse the developer from proceeds of future bond issues or other lawfully available funds. The estimated cost of amounts owed to the developer is trued up when the developer is reimbursed.

***Fulshear Municipal Utility District No. 2
Management's Discussion and Analysis
February 28, 2025***

At February 28, 2025 and February 29, 2024, the District had total bonded debt outstanding as shown below:

Series	2025	2024
2019 Road	\$ 4,130,000	\$ 4,230,000
2023	8,590,000	8,590,000
2023A Road	4,800,000	4,800,000
2024	1,850,000	
2024A Park	5,340,000	
	<u>\$ 24,710,000</u>	<u>\$ 17,620,000</u>

During the current fiscal year, the District issued \$1,850,000 in unlimited tax bonds and \$5,340,000 in unlimited tax park bonds. At February 28, 2025, the District had \$121,560,000 unlimited tax bonds authorized, but unissued for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems within the District and the refunding of such bonds; \$37,660,000 for parks and recreational facilities and the refunding of such bonds, and \$75,870,000 for road improvements and the refunding of such bonds.

Property Taxes

The District's property tax base decreased approximately \$34,147,000 for the 2025 tax year from \$195,015,063 to \$160,868,056, based on preliminary values. The District has an additional \$51,454,835 in uncertified values.

Next Year's Budget

In establishing the budget for the next fiscal year, the Board considered various economic factors that may affect the District, most notably projected revenues from property taxes and the projected cost of operating the District. A comparison of next fiscal year's budget to current fiscal year actual amounts for the General Fund is as follows:

	2025 Actual	2026 Budget
Total revenues	\$ 847,904	\$ 960,000
Total expenditures	(175,032)	(211,172)
Revenues over expenditures	672,872	748,828
Beginning fund balance	1,390,741	2,063,613
Ending fund balance	<u>\$ 2,063,613</u>	<u>\$ 2,812,441</u>

Note 1 – Summary of Significant Accounting Policies

The accounting policies of Fulshear Municipal Utility District No. 2 (the “District”) conform with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (“GASB”). The following is a summary of the most significant policies:

Creation

The District was created by an act by the Texas Legislature under Section 52, Article III and Section 59, Article XVI, as passed by the eighty-third (83rd) Texas Legislature on June 14, 2013 and operates in accordance with the Special District Local Laws Code, Chapter 8480 and the Texas Water Code, Chapters 49 and 54. The Board of Directors held its first meeting on January 29, 2015 and the first bonds were issued on March 28, 2019.

The District was created for the purpose of providing water, sewer and drainage facilities, parks, roads and other public infrastructure to facilitate the development of land within its boundaries. As further discussed in Note 11, the District transfers the water, sewer and drainage facilities, and road improvements to the City of Fulshear for operation and maintenance upon completion of construction. The District has contracted with various consultants to provide services to operate and administer the affairs of the District. The District has no employees, related payroll or pension costs.

Reporting Entity

The District is a political subdivision of the State of Texas governed by an elected five-member board. The GASB has established the criteria for determining the reporting entity for financial statement reporting purposes. To qualify as a primary government, a government must have a separately elected governing body, be legally separate, and be fiscally independent of other state and local governments, while a component unit is a legally separate government for which the elected officials of a primary government are financially accountable. Fiscal independence implies that the government has the authority to adopt a budget, levy taxes, set rates, and/or issue bonds without approval from other governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statements as component units.

Government-Wide and Fund Financial Statements

Government-wide financial statements display information about the District as a whole. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Interfund activity, if any, has been removed from these statements. These aggregated statements consist of the *Statement of Net Position* and the *Statement of Activities*.

Fund financial statements display information at the individual fund level. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for a specific purpose. Each fund is considered to be a separate accounting entity. Most governments typically have

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

many funds; however, governmental financial statements focus on the most important or “major” funds with non-major funds aggregated in a single column. The District has three governmental funds, which are all considered major funds.

The following is a description of the various funds used by the District:

- The General Fund is used to account for the operations of the District and all other financial transactions not reported in other funds. The principal source of revenue is property taxes. Expenditures include costs associated with the daily operations of the District.
- The Debt Service Fund is used to account for the payment of interest and principal on the District’s general long-term debt. The primary source of revenue for debt service is property taxes. Expenditures include costs incurred in assessing and collecting these taxes.
- The Capital Projects Fund is used to account for the expenditures of bond proceeds for the construction of the District’s water, sewer and drainage, parks and recreational facilities and road improvements.

As a special-purpose government engaged in a single governmental program, the District has opted to combine its government-wide and fund financial statements in a columnar format showing an adjustments column for reconciling items between the two.

Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized in the accounting period in which it becomes both available and measurable to finance expenditures of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes and interest earned on investments. Property taxes receivable at the end of the fiscal year are treated as deferred inflows because they are not considered available to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Note 2 further details the adjustments from the governmental fund presentation to the government-wide presentation.

Use of Restricted Resources

When both restricted and unrestricted resources are available for use, the District uses restricted resources first, then unrestricted resources as they are needed.

Prepaid Items

Certain payments made by the District reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Receivables from and payables to external parties are reported separately and are not offset, unless a legal right of offset exists. At February 28, 2025, an allowance for uncollectible accounts was not considered necessary.

Interfund Activity

During the course of operations, transactions occur between individual funds. This can include internal transfers, payables and receivables. This activity is combined as internal balances and is eliminated in both the government-wide and fund financial statement presentation.

Capital Assets

Capital assets do not provide financial resources at the fund level, and, therefore, are reported only in the government-wide statements. The District defines capital assets as assets with an initial cost that exceeds the capitalization threshold for the asset class and an estimated useful life in excess of one year. Capital assets that individually are below the capitalization threshold but, in the aggregate, are above the threshold are capitalized. Subsequent replacements of these assets that do not exceed the threshold are not capitalized. The District's capitalization threshold for infrastructure assets is \$50,000. The threshold for subscription-based information technology arrangements (SBITAs) is \$100,000.

Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire the asset on the acquisition date. The District has not capitalized interest incurred during the construction of its capital assets. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Depreciable capital assets, which primarily consist of landscaping improvements and impact fees, are depreciated (or amortized in the case of intangible assets) using the straight-line method as follows:

Assets	Useful Life
Landscaping improvements	20 years
Impact fees	Remaining life of contract

The District's drainage channels are considered improvements to land and are non-depreciable.

Deferred Inflows and Outflows of Financial Resources

A deferred inflow of financial resources is the acquisition of resources in one period that is applicable to a future period, while a deferred outflow of financial resources is the consumption of financial resources in one period that is applicable to a future period. A deferred inflow results from the acquisition of an asset without a corresponding revenue or assumption of a liability. A deferred outflow results from the use of an asset without a corresponding expenditure or reduction of a liability.

At the fund level, property taxes receivable not collected within 60 days of fiscal year end do not meet the availability criteria required for revenue recognition and are recorded as deferred inflows of financial resources.

Net Position – Governmental Activities

Governmental accounting standards establish the following three components of net position:

Net investment in capital assets – represents the District’s investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets.

Restricted – consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties.

Unrestricted – resources not included in the other components.

Fund Balances – Governmental Funds

Governmental accounting standards establish the following fund balance classifications:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District’s nonspendable fund balance consists of prepaid items.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. The District’s restricted fund balances consist of unspent bond proceeds in the Capital Projects Fund and property taxes levied for debt service in the Debt Service Fund.

Committed - amounts that can be used only for specific purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District does not have any committed fund balances.

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned - all other spendable amounts in the General Fund.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses/expenditures during the period reported. These estimates include, among others, the collectability of receivables; the useful lives and impairment of capital assets; the value of amounts due to developer; the value of capital assets transferred to the City of Fulshear and the value of capital assets for which the developer has not been fully reimbursed. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

Note 2 – Adjustment from Governmental to Government-wide Basis

Reconciliation of the *Governmental Funds Balance Sheet* to the *Statement of Net Position*

Total fund balance, governmental funds	\$ 4,440,578
--	--------------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.

Historical cost	\$ 6,164,574	
Less accumulated depreciation/amortization	<u>(1,219,429)</u>	
		4,945,145

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. The difference consists of:

Accrued interest payable	(428,533)	
Due to developer	(2,091,838)	
Bonds payable	<u>(24,710,000)</u>	
		(27,230,371)

Deferred inflows in the fund statements consist of property taxes receivable that have been levied and are due, but are not available to pay current period expenditures. These amounts are included in revenues in the government-wide statements.

238,464

Total net position - governmental activities	<u><u>\$ (17,606,184)</u></u>
--	-------------------------------

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

Reconciliation of the *Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances* to the *Statement of Activities*

Net change in fund balances - total governmental funds	\$	1,477,318
--	----	-----------

Governmental funds do not report revenues that are not available to pay current obligations. In contrast, such revenues are reported in the *Statement of Activities* when earned. The difference is for property taxes and penalties and interest.

		(70,285)
--	--	----------

Financial reporting for capital assets varies significantly between the fund statements and the government-wide statements. Reporting at the fund level focuses on the impact of transactions on financial resources (i.e., cash), while reporting at the government-wide level seeks to allocate the cost of the acquisition of capital assets over their useful lives and to measure the economic impact of developer financing of capital assets used by the District or conveyed to other governmental entities. Differences during the current fiscal year are for the following:

Capital outlays	\$	5,588,584	
Transfers to other governments		(326,282)	
Depreciation/amortization expense		(256,891)	
		5,005,411	

Financial reporting for certain obligations varies between the fund statements and the government-wide statements. At the fund level, the focus is on increases and decreases of financial resources as debt is issued and repaid. At the government-wide level, the focus is on measuring and reporting on changes in the District's obligation to repay liabilities in the future. Differences during the current fiscal year are for the following:

Issuance of long-term debt		(7,190,000)	
Principal payments		100,000	
Interest expense accrual		(118,861)	
		(7,208,861)	

Change in net position of governmental activities	\$	(796,417)
---	----	-----------

Note 3 – Implementation of New Accounting Guidance

During the current fiscal year, the District implemented GASB Implementation Guide (“GASBIG”) 2021-1, Question 5.1, which requires the capitalization of the acquisition of a group of individual capital assets whose individual acquisition costs are less than the capitalization threshold when the

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

cost of the acquisition of the assets in the aggregate is significant. This new guidance had no effect on the District's financial statements during the current fiscal year.

Note 4 – Deposits and Investments

Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits (i.e. cash) is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. The *Public Funds Collateral Act* (Chapter 2257, Texas Government Code) requires that all of the District's deposits with financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third-party custodian. The act further specifies the types of securities that can be used as collateral. The District's written investment policy establishes additional requirements for collateralization of deposits.

Investments

The District is authorized by the *Public Funds Investment Act* (Chapter 2256, Texas Government Code) to invest in the following: (1) obligations, including letters of credit, of the United States or its agencies and instrumentalities, including Federal Home Loan Banks, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies or instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) certain insured or collateralized certificates of deposit and share certificates, (8) certain fully collateralized repurchase agreements, (9) bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

The District has adopted a written investment policy to establish the principles by which the District's investment program should be managed. This policy further restricts the types of investments in which the District may invest.

As of February 28, 2025, the District's investments consist of the following:

Type	Fund	Carrying Value	Rating	Weighted Average Maturity
TexSTAR	General	\$ 1,838,597	AAAm	35 days
	Debt Service	2,068,982		
	Capital Projects	356,333		
		<u>\$ 4,263,912</u>		

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

TexSTAR

The Texas Short Term Asset Reserve fund (“TexSTAR”) is managed by Hilltop Securities, and J.P. Morgan Investment Management, Inc. Hilltop Securities provides participant and marketing services while J.P. Morgan provides investment management services. Custodial and depository services are provided by J.P. Morgan Chase Bank N.A. or its subsidiary.

TexSTAR uses amortized cost rather than fair value to report net assets to compute share price. Accordingly, investments in TexSTAR are stated at amortized cost which approximates fair value. Investments in TexSTAR may be withdrawn via wire transfer on a same day basis, as long as the transaction is executed by 4 p.m. ACH withdrawals made by 4 p.m. will settle on the next business day.

Investment Credit and Interest Rate Risk

Investment credit risk is the risk that the investor may not recover the value of an investment from the issuer, while interest rate risk is the risk that the value of an investment will be adversely affected by changes in interest rates. The District’s investment policies do not address investment credit and interest rate risk beyond the rating and maturity restrictions established by state statutes.

Note 5 – Interfund Balances and Transactions

Amounts due to/from other funds at February 28, 2025, consist of the following:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amounts</u>	<u>Purpose</u>
General Fund	Debt Service Fund	\$ 32,999	Maintenance tax collections not remitted as of year end
General Fund	Capital Projects Fund	155,841	Bond application and issuance costs paid by the General Fund

Amounts reported as internal balances between funds are considered temporary balances and will be paid during the following fiscal year.

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

Note 6 – Capital Assets

A summary of changes in capital assets, for the year ended February 28, 2025, is as follows:

	Beginning Balances	Additions/ Adjustments	Ending Balances
Capital assets not being depreciated			
Land and improvements	\$ 719,329	\$ -	\$ 719,329
Capital assets being depreciated/amortized			
Landscaping improvements	2,891,100	1,836,868	4,727,968
Impact fees	717,277		717,277
	<u>3,608,377</u>	<u>1,836,868</u>	<u>5,445,245</u>
Less accumulated depreciation/amortization			
Landscaping improvements	(942,045)	(236,398)	(1,178,443)
Impact fees	(20,493)	(20,493)	(40,986)
	<u>(962,538)</u>	<u>(256,891)</u>	<u>(1,219,429)</u>
Subtotal depreciable capital assets, net	<u>2,645,839</u>	<u>1,579,977</u>	<u>4,225,816</u>
Capital assets, net	<u>\$ 3,365,168</u>	<u>\$ 1,579,977</u>	<u>\$ 4,945,145</u>

Depreciation/amortization expense for the current fiscal year was \$256,891.

The District has contractual commitments for construction projects as follows:

	Contract Amount	Paid To Date	Remaining Amount
Fulshear Run Park at Reserve B, Section 6 - hardscape and landscape	\$ 262,924	\$ -	\$ 262,924

Note 7 – Due to Developer

The District has entered into financing agreements with its developer for the financing of the construction of water, sewer, drainage, and park and recreational facilities and road improvements. Under the agreements, the developer will advance funds for the construction of facilities to serve the District. The developer will be reimbursed from proceeds of future bond issues or other lawfully available funds, subject to approval by TCEQ, as applicable. The District does not record the capital asset and related liability on the government-wide statements until construction of the facilities is complete. The initial cost is estimated based on construction costs plus 10-15% for engineering and other fees. Estimates are trued up when the developer is reimbursed.

The District's developer has also advanced funds to the District for operating expenses.

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

Changes in the estimated amounts due to developer during the fiscal year are as follows:

Due to developer, beginning of year	\$ 5,517,272
Developer reimbursements	(5,588,584)
Developer funded construction and adjustments	<u>2,163,150</u>
Due to developer, end of year	<u><u>\$ 2,091,838</u></u>

Note 8 – Long-Term Debt

Long-term debt is comprised of the following:

Bonds payable	<u><u>\$ 24,710,000</u></u>
Due within one year	<u><u>\$ 100,000</u></u>

The District's bonds payable at February 28, 2025, consists of unlimited tax bonds as follows:

Series	Amounts Outstanding	Original Issue	Interest Rates	Maturity Date, Serially, Beginning/ Ending	Interest Payment Dates	Call Dates
2019 Road	\$ 4,130,000	\$ 4,330,000	3.00% - 4.00%	April 1, 2023/2046	April 1, October 1	April 1, 2024
2023	8,590,000	8,590,000	5.00% - 7.50%	April 1, 2026/2049	April 1, October 1	April 1, 2028
2023A Road	4,800,000	4,800,000	4.50% - 7.00%	April 1, 2026/2049	April 1, October 1	April 1, 2028
2024	1,850,000	1,850,000	4.00% - 6.50%	April 1, 2027/2050	April 1, October 1	April 1, 2029
2024A Park	5,340,000	5,340,000	4.00% - 6.50%	April 1, 2027/2050	April 1, October 1	April 1, 2029
	<u><u>\$ 24,710,000</u></u>					

Payments of principal and interest on all series of bonds are to be provided from taxes levied on all properties within the District. Investment income realized by the Debt Service Fund from investment of idle funds will be used to pay outstanding bond principal and interest. The District is in compliance with the terms of its bond resolutions.

At February 28, 2025, the District had authorized but unissued bonds in the amount of \$121,560,000 for the purpose of acquisition, constructing and improving the water, sewer and drainage facilities and the refunding of such bonds; \$37,660,000 for park and recreational facilities and the refunding of such bonds; and \$75,870,000 for road improvements and the refunding of such bonds.

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

On December 20, 2024, the District issued its \$1,850,000 Series 2024 Unlimited Tax Bonds at a net effective interest rate of 4.377610%. Proceeds of the bonds were used to reimburse its developer for the construction of capital assets within the District and the acquisition of land for certain District facilities and to pay developer interest at the net effective interest rate of the bonds.

Additionally, on December 20, 2024, the District issued its \$5,340,000 Series 2024A Unlimited Tax Park Bonds at a net effective interest rate of 4.373008%. Proceeds of the bonds were used to reimburse its developer for the construction of certain park and recreational improvements within the District and other costs associated with the construction of capital assets and to pay developer interest at the net effective interest rate of the bonds.

The change in the District's long-term debt during the fiscal year is as follows:

Bonds payable, beginning of year	\$ 17,620,000
Bonds issued	7,190,000
Bonds retired	<u>(100,000)</u>
Bonds payable, end of year	<u><u>\$ 24,710,000</u></u>

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

As of February 28, 2025, annual debt service requirements on bonds outstanding are as follows:

Year	Principal	Interest	Totals
2026	\$ 100,000	\$ 1,143,254	\$ 1,243,254
2027	415,000	1,181,557	1,596,557
2028	600,000	1,150,482	1,750,482
2029	620,000	1,112,463	1,732,463
2030	655,000	1,072,285	1,727,285
2031	700,000	1,030,212	1,730,212
2032	725,000	986,920	1,711,920
2033	760,000	943,999	1,703,999
2034	785,000	902,437	1,687,437
2035	850,000	860,394	1,710,394
2036	885,000	819,447	1,704,447
2037	920,000	779,641	1,699,641
2038	980,000	737,638	1,717,638
2039	1,015,000	693,438	1,708,438

2044	1,295,000	434,357	1,729,357
2045	1,370,000	374,128	1,744,128
2046	1,430,000	310,778	1,740,778
2047	1,515,000	243,892	1,758,892
2048	1,270,000	179,411	1,449,411
2049	1,335,000	117,871	1,452,871
2050	1,405,000	53,143	1,458,143
2051	480,000	9,977	489,977
	<u>\$ 24,710,000</u>	<u>\$ 17,420,850</u>	<u>\$ 42,130,850</u>

Note 9 – Property Taxes

On May 14, 2015, the voters of the District authorized the District’s Board of Directors to levy taxes annually for use in financing general operations limited to \$1.50 per \$100 of assessed value, and \$1.50 per \$100 of assessed value for use in financing the maintenance of road improvements, and \$0.10 per \$100 of assessed value for use in financing the maintenance of parks and recreational facilities. The District’s bond resolutions require that property taxes be levied for use in paying interest and principal on long-term debt and for use in paying the cost of assessing and collecting taxes. Taxes levied to finance debt service requirements on long-term debt are without limitation as to rate or amount.

All property values and exempt status, if any, are determined by the Fort Bend Central Appraisal District. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

Property taxes are collected based on rates adopted in the year of the levy. The District's 2025 fiscal year was financed through the 2024 tax levy, pursuant to which the District levied property taxes of \$1.14 per \$100 of assessed value, of which \$0.37 was allocated to maintenance and operations, \$0.32 was allocated to road debt service, and \$0.45 was allocated to water, sewer, and drainage debt service. The resulting tax levy was \$2,223,172 on the adjusted taxable value of \$195,015,063.

Total property taxes receivable, at February 28, 2025, consisted of the following:

Current year taxes receivable	\$ 175,235
Prior years taxes receivable	41,799
	217,034
Penalty and interest receivable	21,430
Total property taxes receivable	<u>\$ 238,464</u>

Note 10 – Transfers to Other Governments

In accordance with an agreement between the District and the City of Fulshear (the "City"), the District transfers all of its water, sewer, drainage facilities and road improvements to the City (see Note 11). Accordingly, the District does not record these capital assets in the *Statement of Net Position*, but instead reports the completed projects as transfers to other governments on the *Statement of Activities*. The estimated cost of each project is trued-up when the developer is subsequently reimbursed. For the year ended February 28, 2025, the District reported transfers to other governments in the amount of \$326,282 for developer reimbursement for land acquisition transferred to the City and adjustments to the value of projects completed in previous fiscal years.

Note 11 – Development Agreement with the City of Fulshear

On May 6, 2014, the District's developer, DHK Fulshear LP (the "Developer"), and the City of Fulshear (the "City") entered into a Developmental Agreement to establish the City's regulatory authority over the development of the District, certain restrictions and commitments related to the development of the District, and to set forth detailed design and construction standards and stipulations regarding the conveyance of ownership of the District facilities to the City.

The Developer intends to make provisions for public water supply and distribution, wastewater collection and treatment, and drainage services through public utility facilities to be provided by the District and water supply and sanitary sewer treatment capacity provided by the City. The District is responsible for the design and construction of the water, sanitary sewer, and drainage facilities to serve the land within the District. All final plans must be approved by the City before construction. As the facilities are constructed and inspected by the City, the District shall transfer these facilities to the City (excluding detention ponds or drainage channels, which are owned and operated by the District) for ownership and operation. Additionally, the District constructs roadways to serve the District, which are accepted by the City for operation and maintenance.

Fulshear Municipal Utility District No. 2
Notes to Financial Statements
February 28, 2025

Pursuant to the agreement, the District agreed to pay the City impact fees of \$3,641 per equivalent single-family connection for water supply and distribution and sanity sewer treatment capacity. As of February 28, 2025, the District has paid \$717,277 to the City.

Note 12 – Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; and personal injuries. The risk of loss is covered by commercial insurance. There have been no significant reductions in insurance coverage from the prior year. Settlement amounts have not exceeded insurance coverage for the current fiscal year or the three prior fiscal years.
