INDEPENDENT AUDITOR'S REPORT

Board of Directors
Northwest Harris County Municipal
Utility District No. 21
Harris County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Northwest Harris County Municipal Utility District No. 21 (the "District") as of and for the year ended May 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of May 31, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund and Special Revenue Funds be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Directors
Northwest Harris County Municipal
Utility District No. 21

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide an assurance, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MUNICIPAL UTILITY DISTRICT NO. 21
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED MAY 31, 2025**

Management's discussion and analysis of Northwest Harris County Municipal Utility District No. 21's (the "District") financial performance provides an overview of the District's financial activities for the fiscal year ended May 31, 2025. Please read it in conjunction with the District's financial statements.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to the financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes required and other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position includes all of the District's assets, liabilities and, if applicable, deferred inflows and outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The Statement of Activities reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

FUND FINANCIAL STATEMENTS

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has four governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, costs and general expenditures. The Special Revenue Funds account for financial resources collected and administered by the District for the operations of a joint water plant and a regional wastewater treatment plant. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes. The Capital Projects Fund accounts for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED MAY 31, 2025**

FUND FINANCIAL STATEMENTS (Continued)

Governmental funds are reported in each of the financial statements. The focus in the fund financial statements provides a distinctive view of the District’s governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position and the Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information (“RSI”) and other supplementary information. A budgetary comparison schedule is included as RSI for the General Fund and Special Revenue Funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the District’s financial position. In the case of the District, assets exceeded liabilities by \$13,440,676 as of May 31, 2025.

A portion of the District’s net position reflects its net investment in capital assets (e.g. land, buildings and equipment as well as water and wastewater facilities less any debt used to acquire those assets that is still outstanding).

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

The District's combined fund balances as of May 31, 2025, were \$12,932,562, an increase of \$773,083 from the prior year.

The General Fund fund balance increased by \$656,806, primarily due to property tax revenues and charges for services exceeding operating expenditures and capital costs.

The Debt Service Fund fund balance decreased by \$11,738, primarily due to timing differences between tax collections and debt service payments.

The Capital Projects Fund fund balance increased by \$128,015 due to investment revenues exceeding capital expenditures.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Directors did not amend the budget during the current fiscal. Actual revenues were \$11,929 less than budgeted revenues, actual expenditures were \$128,539 more than budgeted expenditures and actual transfers in where \$8,639 more than budgeted, which resulted in a negative variance of \$131,829. For more information, refer to the budget versus actual comparison.

CAPITAL ASSETS

Capital assets as of May 31, 2025, total \$7,299,864 (net of accumulated depreciation) and include land, buildings and as well as water and wastewater systems. Significant capital asset events during the current fiscal year included the District's share of the wastewater treatment plant improvements and joint water plant improvements. Additional information on the District's capital assets can be found in Note 6 of this report.

MUNICIPAL UTILITY DISTRICT NO. 21
NOTES TO THE FINANCIAL STATEMENTS
MAY 31, 2025**

NOTE 1. CREATION OF DISTRICT

Northwest Harris County Municipal Utility District No. 21 was created by an order of the Texas Water Commission effective July 3, 1979, in accordance with the Texas Water Code, Chapter 54. The Board of Directors held its first meeting on July 12, 1979, and the first bonds were sold on June 10, 1980. The District is empowered, among other things, to purchase, to construct, to operate, and to maintain all works, improvements and facilities necessary for the supply of water, for the collection and processing of wastewater, and for the control and diversion of storm water.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (“GASB”). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission.

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether or not an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statement as component units.

The District has entered into an agreement with Northwest Harris County Municipal Utility District No. 22 (“District No. 22”) and Northwest Harris County Municipal Utility District No. 23 (“District No. 23”) for wastewater disposal. Oversight responsibility of the Northchase Regional Sewage Treatment Plant is with the District. Additional disclosure concerning this agreement is provided in Note 8.

The District has entered into an agreement with District No. 22 for water service. Oversight responsibility of the water plant is with the District. Additional disclosure concerning this agreement is provided in Note 9.

Financial Statement Presentation

These financial statements have been prepared in accordance with Governmental Accounting Standards Board (“GASB”) Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting (“GASB Codification”).

The GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined as follows:

- Net Investment in Capital Assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- Restricted Net Position – This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position – This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District’s policy to use restricted resources first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District’s Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements.

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

Government-Wide Financial Statements (Continued)

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated by adjustment to obtain net total revenues and expenses of the government-wide Statement of Activities.

Fund Financial Statements

As discussed above, the District's fund financial statements are combined with the government-wide financial statements. The fund financial statements include a Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances.

Governmental Funds

The District has four governmental funds and considers each fund to be a major fund.

General Fund - To account for resources not required to be accounted for in another fund, customer service revenues, costs and general expenditures.

Special Revenue Funds - To account for financial resources collected and administered by the District for the operation of a regional wastewater treatment plant and a joint water plant which are Special Revenue Funds of the District.

Debt Service Fund - To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

Capital Projects Fund - To account for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both "measurable and available." Measurable means the amount can be determined. Available means collectable within the current period or soon enough thereafter to pay current liabilities. The District considers revenues reported in governmental funds to be available if they are collectable within 60 days after year end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

Property taxes considered available by the District and included in revenue include taxes collected during the year and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred inflows of resources related to property tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures.

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenditures in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs that extend the life of an asset are capitalized and depreciated over the estimated useful life of the asset. Engineering fees and certain other costs are capitalized as part of the asset.

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs

and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

	<u>Years</u>
Buildings	40
Water System	10-45
Wastewater System	10-45
All Other Equipment	5-20

Budgeting

Annual unappropriated budgets are adopted for the General Fund and Special Revenue Funds by the District's Board of Directors. The budgets are prepared using the same method of accounting as for financial reporting. The original General Fund budget and the Special Revenue Funds budgets for the current year were not amended. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund and Special Revenue Funds present the original budget amounts compared to the actual amounts of revenues and expenditures for the current year.

Pensions

The District has not established a pension plan as the District does not have employees. The Internal Revenue Service has determined that fees of office received by Directors are considered to be wages subject to federal income tax withholding for payroll tax purposes only.

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets, liabilities and deferred inflows and outflows of resources associated with the activities are reported. Fund equity is classified as net position.

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources. Fund balances in governmental funds are classified using the following hierarchy:

**NORTHWEST HARRIS COUNTY

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus (Continued)

Nonspendable: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances.

Unassigned: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3. LONG-TERM DEBT (Continued)

As of May 31, 2025, the District had authorized but unissued bonds in the amount of \$10,765,000 for utility facilities and \$4,875,000 for refunding bonds.

As of May 31, 2025, the debt service requirements on the bonds outstanding were as follows:

Fiscal Year	Principal	Interest	Total
2026	\$ 175,000	\$ 339,981	\$ 514,981
2027	185,000	331,231	516,231
2028	190,000	321,981	511,981
2029	195,000	312,481	507,481
2030	205,000	302,732	507,732
2031-2035	1,135,000	1,369,206	2,504,206
2036-2040	1,395,000	1,086,120	2,481,120
2041-2045	1,755,000	707,500	2,462,500
2046-2049	1,745,000	223,500	1,968,500
	<u>\$ 6,980,000</u>	<u>\$ 4,994,732</u>	<u>\$ 11,974,732</u>

The bonds are payable from the proceeds of an ad valorem tax levied upon all property subject to taxation within the District, without limitation as to rate or amount, and are further payable from and secured by a lien on and pledge of the net revenues to be received from the operation of the District's waterworks and wastewater system.

During the year ended May 31, 2025, the District levied an ad valorem debt service tax rate of \$0.304 per \$100 of assessed valuation, which resulted in a tax levy of \$484,673 on the adjusted taxable valuation of \$159,432,260 for the 2024 tax year. The bond order requires the District to levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and the cost of assessing and collecting taxes. See Note 7 for the maintenance tax levy.

All property values and exempt status, if any, are determined by the appraisal district. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

NOTE 4. SIGNIFICANT BOND ORDER AND LEGAL REQUIREMENTS

The bond orders state that any profit realized from or interest accruing on such investments shall belong to the fund from which the moneys for such investments were taken.

The bond orders state that the District has covenanted that it will take all necessary steps to comply with the requirement that rebatable arbitrage earnings on the investment of the gross proceeds of the bonds, within the meaning of Section 148(f) of the Internal Revenue Code, be rebated to the federal government. The minimum requirement for determination of the rebatable amount is on each 5th year anniversary of the bonds.

The bond orders state that the District is required to provide continuing disclosure of certain financial and operating data with respect to the District to the Municipal Securities Rulemaking Board (the “MSRB”) through its Electronic Municipal Market Access system (“EMMA”). This information, along with audited annual financial statements, is to be provided within six months after the end of the District’s fiscal year, throughout the life of the bonds.

NOTE 5. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District’s deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year end, the carrying amount of the District’s deposits was \$2,384,857 and the bank balance was \$2,685,103. The District was not exposed to custodial credit risk at year-end.

NOTE 5. DEPOSITS AND INVESTMENTS (Continued)

Deposits (Continued)

The carrying values of the deposits are included in the Governmental Funds Balance Sheet and the Statement of Net Position at May 31, 2025, as listed below:

	Cash	Certificates of Deposit	Total

TOTAL DEPOSITS	<u>\$ 1,004,857</u>	<u>\$ 1,380,000</u>	<u>\$ 2,384,857</u>

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District's financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District's investments must be made "with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived." No person may invest District funds without express written authority from the Board of Directors.

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. The District has adopted a written investment policy to establish the guidelines by which it may invest. This policy is reviewed annually. The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in TexPool, an external investment pool that is not SEC-registered. The State Comptroller of Public Accounts of the State of Texas has oversight of the pool. Federated Hermes, Inc. manages the daily operations of the pool under a contract with the Comptroller. TexPool measures all of its portfolio assets at amortized cost. As a result, the District also measures its investments in TexPool at amortized cost for financial reporting purposes. There are no limitations or restrictions on withdrawals from TexPool. The District measures its investments in certificates of deposit at acquisition cost.

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At May 31, 2025, the District's investment in TexPool was rated "AAAm" by Standard and Poor's. The District also manages credit risk by typically investing in certificates of deposit with balances below FDIC coverage.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investment in TexPool to have a maturity of less than one year due to the fact the share position can usually be redeemed each day at the discretion of the District, unless there has been a significant change in value. The District also manages interest rate risk by investing in certificates of deposit with maturities of less than one year.

Restrictions

All cash and investments of the Special Revenue Fund are restricted for the joint water plant and regional sewage treatment plant operations. All cash and investments of the Debt Service Fund are restricted for the payment of debt service and the cost of assessing and collecting taxes. All cash and investments of the Capital Projects Fund are restricted for the purchase of capital assets.

NOTE 7. MAINTENANCE TAX

On August 11, 1979, the voters of the District approved the levy and collection of an unlimited maintenance tax per \$100 valuation on all taxable property within the District. This maintenance tax is to be used in the General Fund to pay expenditures of operating the District's waterworks and sanitary sewer system. During the current fiscal year, the District levied an ad valorem maintenance tax at a rate of \$0.19 per \$100 of assessed valuation, which resulted in a tax levy of \$302,922 on the taxable valuation of \$159,432,260 for the 2024 tax year.

All property values and exempt status, if any, are determined by the appraisal district. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

NOTE 8. REGIONAL SEWAGE TREATMENT PLANT AGREEMENT

On December 13, 1979, the District entered into an agreement with District No. 22 and District No. 23 to share in the construction, ownership and operating costs of a 500,000 gallon per day regional sewage treatment plant (the "Plant"). On September 6, 1985, the Amendment to the agreement was approved, on May 9, 2006, the Second Amendment to the agreement was approved, on December 13, 2014, the Third Amendment to the agreement was approved and on November 21, 2016, the Fourth Amendment to the agreement was approved.

In 1981, the Plant was expanded to 1,000,000 gallons per day capacity, and in 2005, the Plant was again expanded to 1,500,000 gallons per day capacity. The agreement provides for each district to pay a portion of the construction costs based upon its pro rata share of capacity. Each district owns an undivided interest in the Plant equal to its pro rata share of total capacity. District No. 22 sold 50,000 gallons per day sewage treatment capacity to District No. 23 for \$199,500 on November 9, 2005. Effective November 21, 2016, the District sold 95,100 gallons per day capacity in the amount of \$927,225 to District No. 23. The term of the agreement is 35 years.

The participating districts and their respective pro rata share of capacity in the Plant are:

	Capacity in Total Gallons Per day	Percentage of Total Capacity
The District	429,900	28.66%
District No. 22	505,000	33.67
District No. 23	<u>565,100</u>	<u>37.67</u>
	<u>1,500,000</u>	<u>100.00%</u>

The District is responsible for operating and maintaining the Plant and bills each participant on a monthly basis for their share of operating expenditures.

Certain fixed operating costs are allocated based on each district's pro rata share of Plant ownership; all other operating costs are allocated based on each district's pro rata share of billed water consumption served by the Plant. In the current fiscal year, the District recorded total advances in the amount of \$195,500 for operation and maintenance of the Plant of which \$56,030 was the District's share, recorded a total of \$265,222 as its share of operating costs of the Plant and recorded \$12,982 as payable at fiscal year end.

NOTE 9. JOINT WATER SUPPLY FACILITIES AGREEMENT

On February 10, 1984, District No. 22 and the District entered into a joint water supply facilities agreement. On June 1, 1987, the Amendment to the agreement was approved and on February 10, 1999, the Second Amendment to the agreement was approved. In accordance with the agreement, District No. 22 purchased from the District a 52.8% interest in the District's existing water plant and water plant site (the "Plant"). The District will continue to operate the water plant.

Certain fixed operating costs are allocated based on each district's pro rata share of Plant ownership; all other operating costs are allocated based on each district's pro rata share of billed water consumption served by the Plant. In the current fiscal year, the District recorded total advances in the amount of \$332,375 for operation and maintenance of the Plant of which \$156,881 was the District's share; recorded a total of \$470,571 as its share of the operating costs of the Plant which includes \$13,560 of the District's share of chloramine conversion credits and recorded \$25,161 as payable at fiscal year end.

NOTE 10. WATER SUPPLY AGREEMENTS

Fountainhead Municipal Utility District

On January 2, 1980, the District and Fountainhead Municipal Utility District ("Fountainhead") entered into a water interconnect agreement. That contract is revised by the water supply agreement and amendment to water interconnect contract executed on April 15, 1998. The contract was further clarified by a Memorandum of Understanding on April 15, 2009. The term of the amended agreement is 35 years from its date of execution. Fountainhead entered into the water supply agreement to secure a supply of water to serve an approximate 36-acre tract of land within the District. Commensurate with the agreement, Fountainhead purchased an interest in the existing water distribution system equal to 19.75% of the District's undivided 47.2% interest for which Fountainhead paid \$165,242. During the current fiscal year, Fountainhead paid \$135,182 for water purchased from the District.

North Harris County Regional Water Authority

On April 14, 2010, the District and District No. 22 entered into a Water Supply Agreement with the Authority in order for the District and District No. 22 to maintain compliance with the Commission's requirements related to their minimum water supply capacity. The agreement was amended on January 17, 2013. The Authority agrees to sell and deliver to the District and District No. 22 a volume of the Authority's water between 0.416 and 1.00 million gallons per day. In the event of a well failure, the Authority agrees to sell and deliver a volume between 0.82 and 1.97 million gallons per day. The term of this agreement shall end on January 1, 2040.

NOTE 11. INTERIM EMERGENCY WATER SUPPLY CONTRACT

On June 20, 2006, the District entered into an interim and emergency water supply contract with Harris County Municipal Utility District No. 16 (“District No. 16”) and District No. 22. The interconnect facilities located in each district will be constructed, owned, operated and maintained by each respective district.

On an interim basis, the District and District No. 22 agreed to sell up to 630,000 gallons per day of water to District No. 16 at the rate charged by the North Harris County Regional Water Authority (the “Authority”), plus \$0.20 per 1,000 per gallons. The term was for a period of two (2) years from the date the water interconnect facilities were opened. The interconnect was opened on July 5, 2006. An extension of the Interim Water Supply Termination Date was granted through March 1, 2009, thus extending the of \$0.20 per 1,000 gallons plus the rate District No. 22 and the District were charged by the Authority for water. The District and District No. 22 continued to provide water through January 2009. Thereafter, District No. 16 began to purchase water from the Authority.

During an emergency, the price to be paid for water shall be \$1.00 per 1,000 gallons plus the cost of any assessments imposed on the use of water to the supplying district by the various regulatory authorities including but not limited to the Authority. The districts agree to review the price for water on or about every fifth anniversary of this contract. The term of the emergency portion of this contract is 40 years, through June 20, 2046.

NOTE 12. EMERGENCY WATER SUPPLY CONTRACT

On August 18, 1981, District No. 22 entered into an Emergency Water Supply Contract with District No. 23 whereby each district will furnish the other district emergency water supply service for a period of 40 years. District No. 23 maintains the interconnect and all such maintenance costs are equally shared between the two districts. On July 15, 2004, the District executed a First Amendment to the Emergency Water Supply Contract. This contract included the District as well as District No. 22 and District No. 23. The amended contract provides for the supply of water, in an emergency, between districts and for the repayment of water in-kind and eliminates the need for the supplying district to recoup the Authority assessment from the receiving district.

NOTE 13. NORTH HARRIS COUNTY REGIONAL WATER AUTHORITY

The District is located within the boundaries of the Authority. The Authority was created under Article 16, Section 59 of the Texas Constitution by House Bill 2965 (the “Act”), as passed by the 75th Texas Legislature, in 1999. The Act empowers the Authority to provide for the conservation, preservation, protection, recharge and prevention of waste of groundwater, and for the reduction of groundwater withdrawals. The Authority is overseeing that its participants comply with the Harris-Galveston Subsidence District pumpage requirements. The District is required to convert its water supply to surface water over a period of time.

The Authority charges a fee, based on the amount of water pumped from a well, to the owner of wells located within the boundaries of the Authority, unless exempted. This fee enables the Authority to fulfill its purpose and regulatory functions. Currently the fee charged is \$3.60 per 1,000 gallons of water pumped from each well and \$4.05 per 1,000 of surface water purchased. The District’s share of these fees is included in purchased water service. The Water Plant Fund recorded \$653,459 paid to the Authority during the current fiscal year.

The District and District No. 22 funded the construction costs for the conversion to surface water based on their capacity in the water supply facilities. The total costs of the project approved by the Authority for reimbursement is \$395,437, which will be credited to the District over 30 years at a rate of 6%. Principal repayments began in July 2012. The District’s share of the reimbursement is 47.2%. Future repayments are as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2026	\$ 5,012	\$ 8,548	\$ 13,560

NOTE 14. STRATEGIC PARTNERSHIP AGREEMENT WITH THE CITY OF HOUSTON

The District entered into a Strategic Partnership Agreement with the City of Houston on July 15, 2005. Under the Agreement, the City will perform a limited-purpose annexation of property within the District. The City shall impose a Sales & Use Tax on the limited-purpose annexation property activities. An amount equal to 50 percent of all Sales and Use Tax collected by the City on revenues generated within the boundaries of the limited-purpose annexation property shall be paid to the District. The Agreement continues in effect for a period of 30 years. During the current fiscal year, the District recorded revenue of \$413,599 from the City.

NOTE 15. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

NOTE 16. INTERFUND PAYABLES, RECEIVABLES AND TRANSFERS

Interfund liabilities at May 31, 2025 consist of the following: the General Fund owes the Water Plant and Wastewater Treatment Plant Special Revenue Funds \$30,304 for operation costs. The Wastewater Treatment Plant Special Revenue Fund owes the General Fund \$132,829 for the advance made to fund the District's share of the wastewater treatment plant improvements. The Debt Service Fund owes the General Fund \$11,459 for maintenance tax collections. The Construction Fund transferred funds in the amount of \$8,639 related to prior year bond issuance costs.
