INDEPENDENT AUDITOR'S REPORT

Board of Directors
Harris County Municipal Utility District No. 149
Harris County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Harris County Municipal Utility District No. 149 (the "District") as of and for the year ended March 31, 2026, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of March 31, 2026, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedules of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund and each Special Revenue Fund be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide any assurance, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED MARCH 31, 2026**

Management's discussion and analysis of the financial performance of Harris County Municipal Utility District No. 149 (the "District") provides an overview of the District's financial activities for the year ended March 31, 2026. Please read it in conjunction with the District's financial statements.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to the financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes required and other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective like that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position includes all the District's assets and liabilities with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The Statement of Activities reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

FUND FINANCIAL STATEMENTS

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has four governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, sale tax revenues, operating costs and general expenditures. The Special Revenue Funds account for the activities of the jointly operated wastewater treatment facilities and water facilities. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes. The Capital Projects Fund accounts for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED MARCH 31, 2026**

FUND FINANCIAL STATEMENTS (Continued)

Governmental funds are reported in each of the financial statements. The focus in the fund statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position and the Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI"). Budgetary comparison schedules are included as RSI for the General Fund and each Special Revenue Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, assets exceeded liabilities by \$7,509,368 as of March 31, 2026. A portion of the District's net position reflects its net investment in capital assets which includes land and the water and wastewater facilities less any debt used to acquire those assets that is still outstanding.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED MARCH 31, 2026**

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

The District's combined fund balances as of March 31, 2026, were \$16,688,980, an increase of \$62,610 from the prior year. The General Fund fund balance increased by \$306,853, primarily due to service and tax revenues exceeding operating expenditures and a transfer from the Capital Projects Fund. The Debt Service Fund fund balance decreased by \$193,840, primarily due to the structure of the District's outstanding debt. The Capital Projects Fund fund balance decreased by \$50,403, primarily due to capital outlay and a transfer to the General Fund. Special Revenue Fund fund balances are revenue neutral; costs incurred are billed to the participants. Water facilities costs totaled \$907,856 and wastewater treatment facility costs totaled \$847,637 for the current fiscal year.

BUDGETARY HIGHLIGHTS

The Board of Directors did not amend the General Fund budget. Actual revenues were \$173,396 more than budgeted revenues, actual expenditures were \$214,963 less than budgeted expenditures, and transfers in were \$47,653 less than budgeted. This resulted in a positive budget to actual variance of \$340,706. See the budget to actual comparison for more information on variances to individual categories of account balances.

Revenue neutral Special Revenue Fund budgets are also presented as RSI in this report. See the budget to actual comparisons for more detailed information on variances by category of expenditure.

CAPITAL ASSETS

Capital assets as of March 31, 2026, totaled \$11,093,825 (net of accumulated depreciation) and included land, as well as the water and wastewater systems. The District completed the construction of its wastewater treatment plant during the current fiscal year.

LONG-TERM DEBT ACTIVITY

As of March 31, 2026, the District had total bond debt payable of \$20,035,000. Changes in bonds payable during the current fiscal year are summarized in the following table:

Bond Debt Payable, April 1, 2025	\$ 20,715,000
Less: Bond Principal Paid	<u>(680,000)</u>
Bond Debt Payable, March 31, 2026	<u>\$ 20,035,000</u>

The District has an underlying rating of “A-”. The Series 2010 and Series 2024 bonds carry an “AA” rating by virtue of bond insurance issued by Assured Guaranty and the Series 2020 bonds carry an “AA” rating by virtue of bond insurance issued by Build America Mutual Assurance Company. Credit enhanced ratings provided through bond insurance policies are subject to change based on changes to the ratings of the insurers.

HARRIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 149
NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 2026

NOTE 1. CREATION OF DISTRICT

Harris County Municipal Utility District No. 149 of Harris County, Texas (the “District”) was created by order of the Texas Water Rights Commission, predecessor to the Texas Commission on Environmental Quality (the “Commission”), on March 30, 1977, in accordance with the Texas Water Code, Chapter 54. Pursuant to the provisions of Chapters 49 and 54 of the Texas Water Code, the District is empowered to purchase, operate and maintain all facilities, plants and improvements necessary to provide water, sanitary sewer service, storm sewer drainage, irrigation, solid waste collection and disposal, including recycling, and to construct parks and recreational facilities for the residents of the District.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (“GASB”). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission.

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statement as component units.

The District participates in the operation of joint wastewater treatment facilities. Since the District exercises oversight responsibility for the facilities, the activity is accounted for in the Special Revenue Fund of the District (see Note 8). The District does not issue separate financial statements for this joint venture.

The District also participates in the operation of joint water facilities. Since the District exercises oversight responsibility for the facilities, the activity is accounted for in a Special Revenue Fund of the District (see Note 9). The District does not issue separate financial statements for this joint venture.

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting (“GASB Codification”).

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation

The GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted.

These classifications are defined as follows:

- Net Investment in Capital Assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- Restricted Net Position – This component of net position consists of external constraints placed on the use of net assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position – This component of net position consists of net assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole and are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements. The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position. The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds are eliminated by adjustment to obtain net total revenue and expense of the government-wide Statement of Activities.

Fund Financial Statements and Governmental Funds

The District's fund financial statements are combined with the government-wide financial statements. The fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances. The District has four governmental funds and considers each to be a major fund. The General Fund accounts for resources not required to be accounted for in another fund, customer service revenues, sales tax revenues, operating costs and general expenditures. The Special Revenue Funds accounts for financial resources collected and administered by the District for the jointly operated water facilities and wastewater treatment facilities. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes. The Capital Projects Fund accounts for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both "measurable and available." Measurable means the amount can be determined. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The District considers revenue reported in governmental funds to be available if they are collectible within 60 days after year-end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

Property taxes considered available by the District and included in revenue include taxes collected during the year and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred inflows of resources related to property tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures.

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis. The General Fund owed the Special Revenue Fund \$110,316 and \$224,114 for operating costs of the jointly owned water and wastewater treatment facilities, respectively; and the Debt Service Fund owed the General Fund \$4,964 for tax collections.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets, include utility infrastructure and are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Repairs and maintenance are recorded as expenditures in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs that extend the life of an asset are capitalized and depreciated over the estimated useful life of the asset. Engineering fees and certain other costs are capitalized as part of the asset.

Assets are capitalized, including infrastructure assets, if they have an original cost greater than \$5,000 and a useful life over two years. Depreciation is calculated on each class of depreciable property using the straight-line method of depreciation over periods ranging from 10 to 45 years. The District's policy is to record conveyances of facilities to other entities for ownership, maintenance, and operations as an expense in the year conveyed.

Budgeting

Budgets are adopted on an annual basis for the General Fund and each Special Revenue Fund. The budgets are prepared using the same method of accounting as for financial reporting and were not amended. The Schedules of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund and each Special Revenue Fund present the budgeted amounts compared to the actual amounts of revenues and expenditures for the current year.

Pensions

The District has not established a pension plan as the District does not have employees. The Internal Revenue Service has determined that fees of office received by Directors are wages subject to federal income tax withholding for payroll tax purposes only.

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets and liabilities associated with the activities are reported. Fund equity is classified as net position. Governmental fund types are accounted for on a spending or financial flow measurement focus.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 2026

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus (Continued)

Only current assets and current liabilities are included on the Balance Sheet and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources. Fund balances in governmental funds are classified using the following hierarchy:

Nonspendable: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District did not have any committed fund balances.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3. LONG-TERM DEBT

As of March 31, 2026, the District had authorized but unissued bonds in the amount of \$23,180,000 for utility facilities and \$40,187,947 for refunding purposes. The bonds are payable from the proceeds of an ad valorem tax levied upon all property subject to taxation within the District, without limitation as to rate or amount.

Bonds payable activity for the current fiscal year is summarized in the following table:

	April 1, 2025	Additions	Retirements	March 31, 2026
Bonds Payable	\$ 20,715,000	\$	\$ 680,000	\$ 20,035,000

NOTE 3. LONG-TERM DEBT (Continued)

As of March 31, 2026, the debt service requirements on the outstanding bonds were as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2027	\$ 500,000	\$ 671,457	\$ 1,171,457
2028	515,000	655,381	1,170,381
2029	525,000	638,780	1,163,780
2030	545,000	621,757	1,166,757
2031	555,000	603,881	1,158,881
2032-2036	3,015,000	2,746,182	5,761,182
2037-2041	3,435,000	2,313,543	5,748,543
2042-2046	3,945,000	1,800,475	5,745,475
2047-2051	4,800,000	1,064,250	5,864,250
2052-2053	2,200,000	136,950	2,336,950
	<u>\$ 20,035,000</u>	<u>\$ 11,252,656</u>	<u>\$ 31,287,656</u>

During the year ended March 31, 2026, the District levied an ad valorem debt service tax rate of \$0.375 per \$100 of assessed valuation, which resulted in a tax levy of \$1,158,342 on the adjusted taxable valuation of \$308,891,211 for the 2025 tax year. The bond orders require the District to levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and the cost of assessing and collecting taxes. All property values and exempt status, if any, are determined by the appraisal district. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

NOTE 4. SIGNIFICANT BOND ORDER AND LEGAL REQUIREMENTS

The bond orders state that the District should take all necessary steps to comply with the requirement that rebatable arbitrage earnings on the investment of the gross proceeds of the bonds, within the meaning of Section 148(f) of the Internal Revenue Code, be rebated to the federal government. The bond orders also state that the District is required to provide continuing disclosure of certain general financial information and operating data to certain information repositories within six months after the end of each fiscal year throughout the life of the bonds.

NOTE 5. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes. Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the Authority, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year end, the carrying amount of the District's deposits was \$1,056,789 and the bank balance was \$1,139,079. Of the bank balance, \$849,150 was covered by federal depository insurance and the balance was covered by pledged collateral held by a third-party in the District's name. The District was not exposed to custodial credit risk at year-end. The carrying values of the deposits at March 31, 2026, are summarized in the following table:

	Cash	Certificates of Deposit	Total
GENERAL FUND	\$ 172,808	\$ 470,000	\$ 642,808
SPECIAL REVENUE FUNDS	281,248		281,248
DEBT SERVICE FUND	132,367		132,367
CAPITAL PROJECTS FUND	366		366
TOTAL DEPOSITS	<u>\$ 586,789</u>	<u>\$ 470,000</u>	<u>\$ 1,056,789</u>

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District's financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District's investments must be made "with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived." No person may invest District funds without express written authority from the Board of Directors.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 5. DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. The District has adopted a written investment policy which is reviewed annually and which may be more restrictive than the Public Funds Investment Act.

The District invests in Texas Cooperative Liquid Assets Securities System Trust ("Texas CLASS"), an external public funds investment pool that is not SEC-registered. Public Trust Advisors, LLC serves as the pool's administrator and investment advisor. The pool is subject to the general supervision of the Board of Trustees and its Advisory Board. UMB Bank, N.A. serves as custodian for the pool. Investments held by Texas CLASS are priced to market on a weekly basis. The investments are considered to be Level I investments because their fair value is measured by quoted prices in active markets. The fair value of the District's position in the pool is the same as the value of the pool shares. There are no limitations or restrictions on withdrawals from Texas CLASS.

The District records its investments in certificates of deposit at acquisition cost.

As of March 31, 2026, the District had the following investments and maturities:

Funds and Investment Type	Fair Value	Maturities of Less Than 1 Year
<u>GENERAL FUND</u>		
Texas CLASS	\$ 4,997,336	\$ 4,997,336
Certificates of Deposit	470,000	470,000
<u>DEBT SERVICE FUND</u>		
Texas CLASS	1,387,049	1,387,049
<u>CAPITAL PROJECTS FUND</u>		
Texas CLASS	<u>9,579,156</u>	<u>9,579,156</u>
TOTAL INVESTMENTS	<u>\$ 16,433,541</u>	<u>\$ 16,433,541</u>

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. The District's investment in Texas CLASS was rated AAAM by Standard and Poor's. The District also manages credit risk by investing in certificates of deposit covered by FDIC insurance and pledged collateral.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 2026

NOTE 5. DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investment in Texas CLASS to have a maturity of less than one year since the share position can usually be redeemed each day at the discretion of the District, unless there has been a significant change in value. The District also manages interest rate risk by investing in certificates of deposit with maturities of less than one year.

Restrictions

All cash of the Special Revenue Funds is restricted for the cost of operations of the joint water facilities and joint wastewater treatment facilities. All cash and investments of the Debt Service Fund are restricted for the payment of debt and the cost of assessing and collecting taxes. All cash and investments of the Capital Projects Fund are restricted for the purchase of capital assets.

NOTE 6. CAPITAL ASSETS

Changes in capital assets during the current fiscal year are summarized in the following table:

NOTE 7. MAINTENANCE TAX

At an election held August 13, 1977, voters authorized a maintenance tax not to exceed \$0.25 per \$100 valuation. At an election held on November 6, 2018, voters authorized an additional maintenance tax not to exceed \$0.25 per \$100 valuation for a total authorization not to exceed \$0.50 per \$100 valuation on all property within the District subject to taxation. During the year ended March 31, 2026, the District levied an ad valorem maintenance tax rate of \$0.262 per \$100 of assessed valuation, which resulted in a tax levy of \$809,295 on the adjusted taxable valuation of \$308,891,211 for the 2025 tax year.

NOTE 8. WASTE DISPOSAL AGREEMENT

The District owns and operates a wastewater treatment plant with 450,000 gallons per day (gpd) capacity. The District owns 84.44% (380,000 gpd) and District No. 257 owns 15.56% (70,000 gpd) of the treatment capacity of the Plant. The District holds title to and operates the wastewater treatment facilities for the benefit of the participants.

Fixed operating costs are shared based on the pro-rata share of capacity owned and variable costs are shared based on the pro-rata share of total water delivered and metered to customers. In addition, each participant pays an administrative charge of five percent of its portion of the monthly operating costs. The wastewater treatment facilities operations are accounted for in a Special Revenue Fund of the District. The District's share of joint wastewater treatment facilities costs for the current fiscal year was \$693,329.

NOTE 8. WASTE DISPOSAL AGREEMENT (Continued)

As of the report date, the District and District No. 257 were in litigation regarding how to address billing errors related to this agreement. The billing errors relate to water supplied by the District to District No. 257 (see Note 9). District No. 257 sought recovery of at least \$1,286,583 in alleged overpayments to the District. As of August 13, 2026, the District and District No. 257 have appeared to reach a settlement in this dispute for a \$450,000 payment by the District. This amount represents approximately 2 years of District No. 257 overpayments with interest, and a minimal amount for attorneys' fees. The District's Board has generally approved this settlement and their outside counsel will present the formal written settlement documentation to the Board in the very near future for their formal approval. The \$450,000 would be paid by the District to District No. 257 by the end of August, 2026.

NOTE 9. WATER SUPPLY AGREEMENT

On October 15, 2018, the District entered into an Amended and Restated Water Supply Agreement with Harris County Municipal Utility District No. 257. Said agreement has a term of 60 years and acknowledged that the District previously sold a total of 321 equivalent connections in water plant capacity to District No. 257. The participants' shares of capacity in the water facilities are 83.95% for the District and 16.05% for District No. 257. The District holds title to the facilities and operates them for the benefit of the participants. Fixed operating costs are shared based on the pro rata share of capacity owned and variable costs are shared based on the pro rata share of total water delivered and metered to customers. In addition, each participant pays an administrative charge of five percent of its portion of the monthly operating costs. The water facilities operations are accounted for in a Special Revenue Fund of the District. The District's share of joint water facilities costs totaled \$706,593 during the current fiscal year.

As of March 31, 2026, the following balances have been recorded:

	Harris County Municipal Utility District No. 149	Harris County Municipal Utility District No. 257	Total
Balances Receivable from Participants	\$ <u>110,316</u>	\$ <u>112,405</u>	\$ <u>222,721</u>
Reserve for Operations	\$ <u>194,564</u>	\$ <u>70,611</u>	\$ <u>265,175</u>

See Note 8 for information related to pending litigation regarding billing errors.

NOTE 10. RISK MANAGEMENT

The District carries commercial insurance to protect against various risks including loss related to torts, the theft of, damage to or destruction of assets, errors and omissions, and natural disasters. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

NOTE 11. WEST HARRIS COUNTY REGIONAL WATER AUTHORITY

The District is located within the boundaries of the West Harris County Regional Water Authority (the “Authority”). The Authority was created under Article 16, Section 59 of the Texas Constitution by House Bill 1842 (the “Act”), as passed by the seventy-seventh Texas Legislature, in 2001. The Act empowers the Authority for purposes including the acquisition and provision of surface water and groundwater for residential, commercial, industrial, agricultural, and other uses, the reduction of groundwater withdrawals, the conservation, preservation, protection, recharge, and prevention of waste of groundwater, and of groundwater reservoirs or their subdivisions, the control of subsidence caused by withdrawal of water from those groundwater reservoirs or their subdivision.

The Authority charges a fee which enables it to fulfill its purpose and regulatory functions. The current pumpage fee charged by the Authority is \$3.95 per 1,000 gallons of water pumped from each well. The District and District No. 257 also pay a fee for purchased surface water of \$4.35 per 1,000 gallons of water purchased from the Authority. The District and District No. 257 jointly paid \$510,921 to the Authority for pumpage fees and purchased surface water in the current fiscal year.

NOTE 12. STRATEGIC PARTNERSHIP AGREEMENT

Effective December 14, 2009, the District entered into a Strategic Partnership Agreement with the City of Houston, Texas. The agreement provides that the City will annex a tract of land defined as the “Subject Tract” within the boundaries of the District. The District will continue to develop, to own, and to operate and maintain a water and wastewater system in the District. The City imposes a Sales and Use Tax within the boundaries of the Subject Tract and pays the District one-half of all Sales and Use Tax revenues generated within the boundaries of the Subject Tract within 30 days of the City receiving the funds from the State Comptroller’s office. The City agrees that it will not annex the District for full purposes or commence any action to annex the District for full purposes during the term of this Agreement. The term of this Agreement is 30 years from the effective date of the agreement. During the current year, the District recorded revenue of \$104,692.

NOTE 13. UNREIMBURSED COSTS

The District has entered into development financing agreements with Developers within the District. The District has recorded a liability of \$77,043 for construction, engineering and related costs for certain sanitary sewer and storm sewer extensions and detention facilities. This amount was unchanged from the previous fiscal year.

NOTE 14. EMERGENCY WATER SUPPLY CONTRACT

On September 15, 1986, the District approved an Emergency Water Supply Agreement with Langham Creek Utility District (“Langham Creek”). The agreement was amended on November 10, 2000. Under the terms of the agreement, each district has constructed 12” water lines from its respective water system to the point of interconnect. Langham Creek constructed the interconnect facilities and locking mechanism at the point of interconnect. Each district will be responsible for 50% of the maintenance costs of the interconnect facilities. The agreement provides for the supply of water on an emergency basis at a price of \$0.50 per 1,000 gallons. If the supplying district has converted to use of surface water in whole or in part, or if additional fees are imposed upon the supplying district by a regional water authority, the rate per 1,000 gallons will be the actual cost to the supplying district to purchase surface water, or the above rate shall be increased by the amount of fee imposed by a regional water authority.
