Independent Auditor's Report

Board of Directors

Harris - Waller Counties Municipal Utility District No. 4

Harris and Waller Counties, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Harris - Waller Counties Municipal Utility District No. 4 (the "District"), as of and for the year ended April 30, 2026, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Harris - Waller Counties Municipal Utility District No. 4, as of April 30, 2026, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Board of Directors
Harris - Waller Counties Municipal Utility District No. 4
Harris and Waller Counties, Texas

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied

***Board of Directors
Harris - Waller Counties Municipal Utility District No. 4
Harris and Waller Counties, Texas***

certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Texas Supplementary Information schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Texas Supplementary Information schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

***Harris - Waller Counties Municipal Utility District No. 4
Management's Discussion and Analysis
April 30, 2026***

Using this Annual Report

This section of the financial report of Harris - Waller Counties Municipal Utility District No. 4 (the "District") provides a narrative discussion and analysis of the financial activities of the District for the fiscal year ended April 30, 2026. This analysis should be read in conjunction with the independent auditor's report and the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The District's basic financial statements;
- Notes to the basic financial statements, which provide additional information essential to a full understanding of the data provided in the financial statements;
- Supplementary information required by the Governmental Accounting Standards Board (GASB) concerning the District's budget; and
- Other Texas supplementary information required by the District's state oversight agency, the Texas Commission on Environmental Quality (TCEQ).

Overview of the Financial Statements

The District prepares its basic financial statements using a format that combines fund financial statements and government-wide statements onto one financial statement. The combined statements are the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. Each statement contains an adjustments column which quantifies the differences between the government-wide and fund level statements. Additional details of the adjustments are provided in Note 2 to the basic financial statements.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District, both long-term and short-term. The District's government-wide financial statements consist of the *Statement of Net Position* and the *Statement of Activities*, which are prepared using the accrual basis of accounting. The *Statement of Net Position* includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual reported as net position. Over time, changes in net position may provide a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

Accounting standards establish three components of net position. The net investment in capital assets component represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets. Resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The restricted component of net position consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties. The unrestricted component of net position represents resources not included in the other components.

***Harris - Waller Counties Municipal Utility District No. 4
Management's Discussion and Analysis
April 30, 2026***

The *Statement of Activities* reports how the District's net position has changed during the fiscal year. All revenues and expenses are included on this statement, regardless of whether cash has been received or paid.

Fund Financial Statements

The fund financial statements include the *Governmental Funds Balance Sheet* and the *Governmental Funds Revenues, Expenditures and Changes in Fund Balances*. The focus of fund financial statements is on specific activities of the District rather than the District as a whole, reported using modified accrual accounting. These statements report on the District's use of available financial resources and the balances of available financial resources at the end of the year. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties, governmental statutes or regulations.

For further discussion on the government-wide and fund financial statements, please refer to Note 1 in the financial statements.

Financial Analysis of the District as a Whole

The District's net position at April 30, 2026, was negative \$77,909,252. The District's net position is negative because the District incurs debt to construct certain public roads and drainage facilities which it conveys to Waller County. A comparative summary of the District's overall financial position, as of April 30, 2026 and 2025, is as follows:

	2026	2025
Current and other assets	\$ 13,843,447	\$ 9,342,106
Capital assets	109,062,026	96,708,598
Total assets	<u>122,905,473</u>	<u>106,050,704</u>
Current liabilities	18,744,815	12,132,733
Long-term liabilities	182,069,910	147,827,947

Unrestricted	(68,801,944)	(45,735,875)
Total net position	<u>\$ (77,909,252)</u>	<u>\$ (53,909,976)</u>

Harris - Waller Counties Municipal Utility District No. 4
Management's Discussion and Analysis
April 30, 2026

The total net position of the District decreased during the current fiscal year by \$23,999,276. A comparative summary of the District's *Statement of Activities* for the past two fiscal years is as follows:

	2026	2025
Revenues		
Property taxes, penalties and interest	\$ 72,881	\$ 37,139
Water and sewer service	33,487	12,786
Tap connection and inspection	6,050	67,681
Participant billings	9,933,546	6,876,177
Contract taxes from participants	7,846,450	5,367,125
Other	361,146	269,299
Total revenues	<u>18,253,560</u>	<u>12,630,207</u>
Expenses		
Current service operations	9,785,654	6,556,060
Debt interest and fees	5,662,242	3,989,273
Developer interest	2,468,865	1,939,533
Debt issuance costs	2,920,436	2,594,294
Intergovernmental	47,175	32,916
Depreciation and amortization	1,425,685	1,229,087
Total expenses	<u>22,310,057</u>	<u>16,341,163</u>
Change in net position before other item	(4,056,497)	(3,710,956)
Other item		
Transfers to other governments	<u>(19,942,779)</u>	<u>(9,619,726)</u>
Change in net position	(23,999,276)	(13,330,682)
Net position, beginning of year	<u>(53,909,976)</u>	<u>(40,579,294)</u>
Net position, end of year	<u><u>\$ (77,909,252)</u></u>	<u><u>\$ (53,909,976)</u></u>

Financial Analysis of the District's Funds

The District's combined fund balances, as of April 30, 2026, were \$11,811,142, which consists of negative \$338,964 in the General Fund, \$10,945,745 in the Master District Debt Service Fund, \$123,943 in the Master District Capital Projects Fund, and \$1,080,418 in the Master District Operating Fund.

***Harris - Waller Counties Municipal Utility District No. 4
Management's Discussion and Analysis
April 30, 2026***

General Fund

A comparative summary of the General Fund's financial position as of April 30, 2026 and 2025, is as follows:

	2026	2025
Total assets	<u>\$ 121,083</u>	<u>\$ 84,559</u>
Total liabilities	\$ 460,047	\$ 314,798
Total deferred inflows		9
Total fund balance	<u>(338,964)</u>	<u>(230,248)</u>
Total liabilities, deferred inflows and fund balance	<u>\$ 121,083</u>	<u>\$ 84,559</u>

A comparative summary of the General Fund's activities for the current and prior fiscal year is as follows:

	2026	2025
Total revenues	\$ 115,319	\$ 124,343
Total expenditures	<u>(224,035)</u>	<u>(173,987)</u>
Revenues under expenditures	<u>\$ (108,716)</u>	<u>\$ (49,644)</u>

The District manages its activities with the objectives of ensuring that expenditures will be adequately covered by revenues each year and that an adequate fund balance is maintained. The District's primary financial resources in the General Fund are from a property tax levy, which is dependent upon assessed values in the District and the maintenance tax rate set by the District. Property tax revenues increased from prior year because the District increased the maintenance and operations component of the levy and because assessed values increased from prior year.

Master District Debt Service Fund

A comparative summary of the Master District Debt Service Fund's financial position as of April 30, 2026 and 2025, is as follows:

	2026	2025
Total assets	<u>\$ 10,945,745</u>	<u>\$ 7,486,465</u>
Total fund balance	<u>\$ 10,945,745</u>	<u>\$ 7,486,465</u>

***Harris - Waller Counties Municipal Utility District No. 4
Management's Discussion and Analysis
April 30, 2026***

A comparative summary of the Master District Debt Service Fund's activities for the current and prior fiscal year is as follows:

	2026	2025
Total revenues	\$ 8,137,109	\$ 5,582,999
Total expenditures	(6,312,611)	(4,038,468)
Revenues over expenditures	1,824,498	1,544,531
Other changes in fund balance	1,634,782	1,398,469
Net change in fund balance	<u>\$ 3,459,280</u>	<u>\$ 2,943,000</u>

The District's financial resources in the Master District Debt Service Fund in both the current and prior fiscal year are from property tax revenues, contract tax revenues and capitalized interest from the sale of bonds. The difference between these financial resources and debt service requirements resulted in an increase in fund balance each year. It is important to note that the District sets its annual debt service tax rate as recommended by its financial advisor, who monitors projected cash flows in the Master District Debt Service Fund to ensure that the District will be able to meet its future debt service requirements.

Master District Capital Projects Fund

A comparative summary of the Master District Capital Projects Fund's financial position as of April 30, 2026 and 2025, is as follows:

	2026	2025
Total assets	<u>\$ 328,055</u>	<u>\$ 18,111</u>
Total liabilities	\$ 204,112	\$ 4,027
Total fund balance	123,943	14,084
Total liabilities and fund balance	<u>\$ 328,055</u>	<u>\$ 18,111</u>

A comparative summary of activities in the Master District Capital Projects Fund for the current and prior fiscal year is as follows:

	2026	2025
Total revenues	\$ 31,464	\$ 11,409
Total expenditures	(36,726,823)	(32,346,551)
Revenues under expenditures	(36,695,359)	(32,335,142)
Other changes in fund balance	36,805,218	31,536,531
Net change in fund balance	<u>\$ 109,859</u>	<u>\$ (798,611)</u>

The District has had considerable capital asset activity in the last two years, which was financed with proceeds from the issuance of its Series 2025 Contract Revenue Bonds, Series 2025 Contract Revenue Road Bonds, and Series 2025 Bond Anticipation Note in the current fiscal year and issuance of its Series 2024 Contract Revenue Bonds, Series 2024 Contract Revenue Road Bonds, and Series 2024 Bond Anticipation Note in the prior year.

***Harris - Waller Counties Municipal Utility District No. 4
Management's Discussion and Analysis
April 30, 2026***

Master District Operating Fund

The Master District Operating Fund is used to account for the operations of the Master District. A comparative summary of the Master District Operating Fund's financial position as of April 30, 2026 and 2025, is as follows:

	2026	2025
Total assets	<u>\$ 2,671,276</u>	<u>\$ 1,752,971</u>
Total liabilities	\$ 1,590,858	\$ 831,369
Total fund balance	<u>1,080,418</u>	<u>921,602</u>
Total liabilities and fund balance	<u>\$ 2,671,276</u>	<u>\$ 1,752,971</u>

A comparative summary of activities for the Master District Operating Fund's current and prior fiscal year is as follows:

	2026	2025
Total revenues	\$ 9,969,677	\$ 6,911,456
Total expenditures	<u>(9,810,861)</u>	<u>(6,262,239)</u>
Revenues over expenditures	<u>\$ 158,816</u>	<u>\$ 649,217</u>

Revenues in the Master District Operating Fund primarily consist of charges to participants. The amount the District (in its Master District capacity) charges is based upon the actual cost of providing services. See Note 11 for additional information.

General Fund Budgetary Highlights

The Board of Directors adopts an annual unappropriated budget for the General Fund prior to the beginning of each fiscal year. The Board did not amend the budget during the fiscal year.

Since the District's budget is primarily a planning tool, actual results varied from the budgeted amounts. Actual net change in fund balance was \$92,556 less than budgeted. The *Budgetary Comparison Schedule* on page 40 of this report provides variance information per financial statement line item.

Capital Assets

The District has entered into financing agreements with its developers for the financing of the construction of capital assets within the District. Developers will be reimbursed from proceeds of future bond issues or other lawfully available funds. These developer funded capital assets are recorded on the District's financial statements upon completion of construction.

Harris - Waller Counties Municipal Utility District No. 4
Management's Discussion and Analysis
April 30, 2026

Capital assets held by the District at April 30, 2026 and 2025, are summarized as follows:

	<u>2026</u>	<u>2025</u>
Capital assets not being depreciated		
Land and improvements	\$ 52,834,578	\$ 47,449,311
Capital assets being depreciated/amortized		
Infrastructure	49,331,347	42,058,356
Landscaping improvements	5,675,696	5,622,041
Water and wastewater capacity	5,645,000	4,577,800
	<u>60,652,043</u>	<u>52,258,197</u>
Less accumulated depreciation/amortization		
Infrastructure	(3,332,605)	(2,253,506)
Landscaping improvements	(749,822)	(523,688)
Water and wastewater capacity	(342,168)	(221,716)
	<u>(4,424,595)</u>	<u>(2,998,910)</u>
Depreciable capital assets, net	<u>56,227,448</u>	<u>49,259,287</u>
Capital assets, net	<u>\$ 109,062,026</u>	<u>\$ 96,708,598</u>

Capital asset additions during the current fiscal year include the following:

- Beckendorff Road Street Dedication Sections 5 and 6 - utilities
- Stockdick Road Street Dedication Sections 6 and 7 - utilities
- Sunterra Recreation Center and Street Dedication - utilities
- Sunterra Lift Stations No. 5 and 6
- Beckendorff Section 3 - utilities
- Bartlett Road Street Dedication and reserves - utilities
- Sunterra pedestrian crossing
- Aurora Bend Section 1 pavement repairs
- Sunterra brick plug modifications and slope paving
- Sunterra elevated storage tank site grading
- Katy Lakes Estates curb
- Sunterra dead tree replacement
- Aurora Bend and Reef Coast repair
- Water and wastewater capacity fees
- Land acquisitions

Additionally, Waller County assumes responsibility (after a one-year maintenance period) for certain road and drainage facilities constructed within the boundaries of Waller County. Accordingly, these facilities are not considered assets of the District. The estimated value of these assets is recorded as transfers to other governments upon completion of construction. This estimated cost is trued-up when the developers are reimbursed. For the year ended April 30, 2026, capital assets in the amount of \$19,942,779 have been recorded as transfers to other governments in the government-wide statements. Additional information is presented in Note 10.

***Harris - Waller Counties Municipal Utility District No. 4
Management's Discussion and Analysis
April 30, 2026***

Long-Term Debt and Related Liabilities

As of April 30, 2026, the District owes approximately \$66,569,910 to developers for completed projects. The initial cost of the completed project and related liability is estimated based on actual construction costs plus 10-15% for engineering and other fees and is recorded on the District's financial statements upon completion of construction. As discussed in Note 7, the District has an additional commitment in the amount of \$2,170,000 for projects under construction by the developers. As noted, the District will owe its developers for these projects upon completion of construction. The District intends to reimburse the developers from proceeds of future bond issues or other lawfully available funds. The estimated cost of amounts owed to the developers is trued up when the developers are reimbursed.

At April 30, 2026 and 2025, the District had total bonded debt outstanding as shown below:

Series	2026	2025
2022	\$ 11,960,000	\$ 12,225,000
2022 Road	9,970,000	10,190,000
2023	13,940,000	14,250,000
2023 Road	15,770,000	16,085,000
2024	15,770,000	15,770,000
2024 Road	16,395,000	16,395,000
2025	17,425,000	
2025 Road	16,135,000	
	<u>\$ 117,365,000</u>	<u>\$ 84,915,000</u>

During the current fiscal year, the District, in its capacity as a Master District, issued \$17,425,000 in contract revenue bonds and \$16,135,000 in contract revenue road bonds. At April 30, 2026, the District, in its capacity as a Master District, had \$550,302,000 contract revenue bonds authorized, but unissued for the purposes of regional water, sanitary sewer and drainage facilities and \$140,646,000 authorized, but unissued for road improvements.

At April 30, 2026, the District, in its capacity as a participating district, had \$27,610,000 unlimited tax bonds authorized, but unissued for the purposes of acquiring, constructing and improving the water, sanitary sewer, and drainage systems within the District and \$8,284,000 for the refunding of such bonds; \$23,285,000 authorized, but unissued for parks and recreational facilities and \$6,986,000 for the refunding of such bonds; and \$28,545,000 authorized, but unissued for road improvements and \$8,564,000 for the refunding of such bonds.

During the current fiscal year, the District, in its capacity as a Master District, issued a \$14,560,000 bond anticipation note (BAN) to provide short-term financing for developer reimbursements. The District intends to repay the BAN with proceeds from the issuance of long-term debt. See Note 6 for additional information.

***Harris - Waller Counties Municipal Utility District No. 4
Management's Discussion and Analysis
April 30, 2026***

Property Taxes

The District's property tax base increased approximately \$2,880,000 for the 2026 tax year from \$4,750,314 to \$7,630,531. This increase was primarily due to new construction in the District.

Next Year's Budget

In establishing the budget for the next fiscal year, the Board considered various economic factors that may affect the District, most notably projected revenues from property taxes and water/sewer services and the projected cost of operating the District and providing services to customers. A comparison of next fiscal year's budget to current fiscal year actual amounts for the General Fund is as follows:

	2026 Actual	2027 Budget
Total revenues	\$ 115,319	\$ 129,500
Total expenditures	(224,035)	(108,123)
Revenues over (under) expenditures	(108,716)	21,377
Beginning fund balance	(230,248)	(338,964)
Ending fund balance	<u>\$ (338,964)</u>	<u>\$ (317,587)</u>

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

Note 1 – Summary of Significant Accounting Policies

The accounting policies of Harris - Waller Counties Municipal Utility District No. 4 (the “District”) conform with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (“GASB”). The following is a summary of the most significant policies:

Creation

The District was organized, created, and established pursuant to House Bill No. 4520, 86th Session of the Texas Legislature, Regular Session, codified as Chapter 8047, Texas Special District Local Law Code (the “Act”), effective May 3, 2019, and operates in accordance with Section 52, Article III, and Section 59, Article XVI, of the Texas Constitution, and the Texas Water Code, Chapter 49 and 54. On July 30, 2020, voters of the District approved a proposition dividing the District into three districts: the District, Harris – Waller Counties Municipal Utility District No. 5 (“MUD 5”) and Waller County Municipal Utility District No. 37 (“MUD 37”). The Board of Directors held its first meeting on July 30, 2020, and the first Master District contract revenue bonds were issued on December 20, 2022.

The District’s primary activities include construction, maintenance and operation of water, sewer and drainage facilities. The District has contracted with various consultants to provide services to operate and administer the affairs of the District. The District has no employees, related payroll or pension costs.

Reporting Entity

The District is a political subdivision of the State of Texas governed by an elected five-member board. The GASB has established the criteria for determining the reporting entity for financial statement reporting purposes. To qualify as a primary government, a government must have a separately elected governing body, be legally separate, and be fiscally independent of other state and local governments, while a component unit is a legally separate government for which the elected officials of a primary government are financially accountable. Fiscal independence implies that the government has the authority to adopt a budget, levy taxes, set rates, and/or issue bonds without approval from other governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statements as component units.

Government-Wide and Fund Financial Statements

Government-wide financial statements display information about the District as a whole. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Interfund activity, if any, has been removed from these statements. These aggregated statements consist of the *Statement of Net Position* and the *Statement of Activities*.

Fund financial statements display information at the individual fund level. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for a specific

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

purpose. Each fund is considered to be a separate accounting entity. Most governments typically have many funds; however, governmental financial statements focus on the most important or “major” funds with non-major funds aggregated in a single column. The District has four governmental funds, which are all considered major funds.

The following is a description of the various funds used by the District:

- The General Fund is used to account for the operations of the District’s water and sewer system and all other financial transactions not reported in other funds. The principal source of revenue is property taxes. Expenditures include costs associated with the daily operations of the District and costs incurred in assessing and collecting taxes.
- The Master District Debt Service Fund is used to account for the payment of interest and principal on the District’s contract revenue bonds. The primary source of revenue for debt service are contract tax payments from participating district in the Master District service area and capitalized interest from the sale of bonds.
- The Master District Capital Projects Fund is used to account for the expenditures of bond proceeds for the construction of the Master District’s regional facilities.
- The Master District Operating Fund is used to account for the operations and maintenance of the regional facilities. The principal source of revenue is from Master District service fees received from participating districts. Expenditures include costs associated with the daily operations of the regional facilities. See Note 11.

As a special-purpose government engaged in a single governmental program, the District has opted to combine its government-wide and fund financial statements in a columnar format showing an adjustments column for reconciling items between the two.

Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized in the accounting period in which it becomes both available and measurable to finance expenditures of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes, interest earned on investments and income from District operations. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Note 2 further details the adjustments from the governmental fund presentation to the government-wide presentation.

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

Use of Restricted Resources

When both restricted and unrestricted resources are available for use, the District uses restricted resources first, then unrestricted resources as they are needed.

Prepaid Items

Certain payments made by the District reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Interfund Activity

During the course of operations, transactions occur between individual funds. This can include internal transfers, payables and receivables. This activity is eliminated in the government-wide financial statement presentation.

Capital Assets

Capital assets do not provide financial resources at the fund level, and, therefore, are reported only in the government-wide statements. The District defines capital assets as assets with an initial cost that exceeds the capitalization threshold for the asset class and an estimated useful life in excess of one year. Capital assets that individually are below the capitalization threshold but, in the aggregate, are above the threshold are capitalized. Subsequent replacements of these assets that do not exceed the threshold are not capitalized. The District's capitalization threshold for infrastructure assets is \$50,000. The threshold for subscription-based information technology arrangements (SBITAs) is \$100,000.

Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire the asset on the acquisition date. The District has not capitalized interest incurred during the construction of its capital assets. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Depreciable capital assets, which primarily consist of water and wastewater facilities, are depreciated (or amortized in the case of intangible assets) using the straight-line method as follows:

Assets	Useful Life
Infrastructure	10-45 years
Landscaping improvements	20 years
Water and wastewater capacity	Remaining life of contract

The District's detention facilities are considered improvements to land and are non-depreciable.

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

Net Position – Governmental Activities

Governmental accounting standards establish the following three components of net position:

Net investment in capital assets – represents the District’s investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets.

Restricted – consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties.

Unrestricted – resources not included in the other components.

Fund Balances – Governmental Funds

Governmental accounting standards establish the following fund balance classifications:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District’s nonspendable fund balance consists of prepaid items.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. The District’s restricted fund balances consist of unspent bond proceeds in the Master District Capital Projects Fund and capitalized interest from the sale of bonds and contract taxes from participants in the Master District Debt Service Fund.

Committed - amounts that can be used only for specific purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District’s committed fund balances in the Master District Operating Fund consist of amounts restricted for the operation of the regional facilities as discussed in Note 11.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned – resources not included in the other components.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses/expenditures during the period reported. These estimates include, among others, the collectability of receivables; the useful lives and impairment of capital assets; the value of amounts due to developers; the value of capital assets transferred to Waller County and the value of capital assets for which the developers have not been fully reimbursed. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

Note 2 – Adjustment from Governmental to Government-wide Basis

Reconciliation of the *Governmental Funds Balance Sheet* to the *Statement of Net Position*

Total fund balance, governmental funds	\$	11,811,142
--	----	------------

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.

Historical cost	\$	113,486,621	
Less accumulated depreciation/amortization		<u>(4,424,595)</u>	
			109,062,026

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. The difference consists of:

Accrued interest payable	(287,510)	
Bond anticipation note payable	(14,560,000)	
Due to developers	(66,569,910)	
Bonds payable	<u>(117,365,000)</u>	
		(198,782,420)

Total net position - governmental activities	\$	<u><u>(77,909,252)</u></u>
--	----	----------------------------

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities

Net change in fund balances - total governmental funds	\$ 3,619,239
--	--------------

Governmental funds do not report revenues that are not available to pay current obligations. In contrast, such revenues are reported in the *Statement of Activities* when earned. The difference is for property taxes. (9)

Financial reporting for capital assets varies significantly between the fund statements and the government-wide statements. Reporting at the fund level focuses on the impact of transactions on financial resources (i.e., cash), while reporting at the government-wide level seeks to allocate the cost of the acquisition of capital assets over their useful lives and to measure the economic impact of developer financing of capital assets used by the District or conveyed to other governmental entities. Differences during the current fiscal year are for the following:

Capital outlays	\$ 31,174,931	
Transfers to other governments	(19,942,779)	
Depreciation/amortization expense	<u>(1,425,685)</u>	
		9,806,467

Financial reporting for certain obligations varies between the fund statements and the government-wide statements. At the fund level, the focus is on increases and decreases of financial resources as debt is issued and repaid. At the government-wide level, the focus is on measuring and reporting on changes in the District's obligation to repay liabilities in the future. Differences during the current fiscal year are for the following:

Issuance of long-term debt	(33,560,000)	
Proceeds from bond anticipation note	(14,560,000)	
Repayment of bond anticipation note	9,680,000	
Principal payments	1,110,000	
Interest payable on bonds	<u>(94,973)</u>	
		(37,424,973)

Change in net position of governmental activities	<u><u>\$ (23,999,276)</u></u>
---	-------------------------------

Note 3 – Deposits and Investments

Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits (i.e. cash) is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. The *Public Funds Collateral Act* (Chapter 2257, Texas Government Code) requires that all of the District's deposits with financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third-party custodian. The act further specifies the types of securities that can be used as collateral. The District's written investment policy establishes additional requirements for collateralization of deposits.

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

Investments

The District is authorized by the *Public Funds Investment Act* (Chapter 2256, Texas Government Code) to invest in the following: (1) obligations, including letters of credit, of the United States or its agencies and instrumentalities, including Federal Home Loan Banks, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies or instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) certain insured or collateralized certificates of deposit and share certificates, (8) certain fully collateralized repurchase agreements, (9) bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

The District has adopted a written investment policy to establish the principles by which the District's investment program should be managed. This policy further restricts the types of investments in which the District may invest.

As of April 30, 2026, the District's investments consist of the following:

Type	Fund	Carrying Value	Rating	Weighted Average Maturity
TexSTAR	General	\$ 49,414		
	Master District Debt Service	8,025,240		
	Master District Capital Projects	14,835		
	Master District Operating	2,167		
Total		<u><u>\$ 8,091,656</u></u>	AAAm	43 days

TexSTAR

The Texas Short Term Asset Reserve fund ("TexSTAR") is managed by Hilltop Securities, and J.P. Morgan Investment Management, Inc. Hilltop Securities provides participant and marketing services while J.P. Morgan provides investment management services. Custodial and depository services are provided by J.P. Morgan Chase Bank N.A. or its subsidiary.

TexSTAR uses amortized cost rather than fair value to report net assets to compute share price. Accordingly, investments in TexSTAR are stated at amortized cost which approximates fair value. Investments in TexSTAR may be withdrawn via wire transfer on a same day basis, as long as the transaction is executed by 4 p.m. ACH withdrawals made by 4 p.m. will settle on the next business day.

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

Investment Credit and Interest Rate Risk

Investment credit risk is the risk that the investor may not recover the value of an investment from the issuer, while interest rate risk is the risk that the value of an investment will be adversely affected by changes in interest rates. The District's investment policies do not address investment credit and interest rate risk beyond the rating and maturity restrictions established by state statutes.

Note 4 – Interfund Balances and Transactions

Amounts due to/from other funds at April 30, 2026, consist of the following:

Receivable Fund	Payable Fund	Amounts	Purpose
Master District Operating	General	\$ 2,033	Participant billings not remitted as of fiscal year end
Master District Operating	Master District Capital Projects	197,279	Bond application fees and capital outlay paid by the Master District Operating Fund
Master District Debt Service	General	23,400	Amount owed for contract tax contractual obligations

Amounts reported as internal balances between funds are considered temporary balances and will be paid during the following fiscal year.

Note 5 – Capital Assets

A summary of changes in capital assets, for the year ended April 30, 2026, is as follows:

	Beginning Balances	Additions/ Adjustments	Ending Balances
Capital assets not being depreciated			
Land and improvements	\$ 47,449,311	\$ 5,385,267	\$ 52,834,578
Capital assets being depreciated/amortized			
Infrastructure	42,058,356	7,272,991	49,331,347
Landscaping improvements	5,622,041	53,655	5,675,696
Water and wastewater capacity	4,577,800	1,067,200	5,645,000
	52,258,197	8,393,846	60,652,043
Less accumulated depreciation/amortization			
Infrastructure	(2,253,506)	(1,079,099)	(3,332,605)
Landscaping improvements	(523,688)	(226,134)	(749,822)
Water and wastewater capacity	(221,716)	(120,452)	(342,168)
	(2,998,910)	(1,425,685)	(4,424,595)
Subtotal depreciable capital assets, net	49,259,287	6,968,161	56,227,448
Capital assets, net	\$ 96,708,598	\$ 12,353,428	\$ 109,062,026

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

Depreciation/amortization expense for the current fiscal year was \$1,425,685.

Note 6 – Bond Anticipation Note

The District uses a bond anticipation note (“BAN”) to provide short-term financing for reimbursements to its developers. Despite its short-term nature, a BAN is not recorded as a fund liability, since it will not be repaid from current financial resources and will be repaid through the issuance of long-term debt or another BAN. It is, however, recorded as a liability at the government-wide level.

At the beginning of the fiscal year, the District had a BAN outstanding in the amount of \$9,680,000. This BAN was repaid on August 26, 2025 with proceeds from the issuance of the District’s Series 2025 Contract Revenue Bonds.

On November 26, 2025, the District issued a \$14,560,000 BAN with an interest rate of 4.65%, which is due on November 25, 2026. This BAN was repaid subsequent to year end. See Note 15 for additional information.

The effect of these transactions on the District’s short-term obligations are as follows:

Beginning balance	\$ 9,680,000
Amounts borrowed	14,560,000
Amounts repaid	<u>(9,680,000)</u>
Ending balance	<u><u>\$ 14,560,000</u></u>

Note 7 – Due to Developers

The District has entered into financing agreements with its developers for the financing of the construction of water, sewer, drainage, and park and recreational facilities and road improvements. Under the agreements, the developers will construct facilities on behalf of the District. The developers will be reimbursed from proceeds of future bond issues or other lawfully available funds, subject to approval by TCEQ, as applicable. The District does not record the capital asset and related liability on the government-wide statements until construction of the facilities is complete. The initial cost is estimated based on construction costs plus 10-15% for engineering and other fees. Estimates are trued up when the developers are reimbursed.

Changes in the estimated amounts due to developers during the fiscal year are as follows:

Due to developers, beginning of year	\$ 64,022,947
Developer reimbursements	(29,581,482)
Developer funded construction and adjustments	<u>32,128,445</u>
Due to developers, end of year	<u><u>\$ 66,569,910</u></u>

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

In addition, the District will owe the developers approximately \$2,170,000, which is included in the schedule of contractual commitments below. The projects in this schedule are in varying stages of completion and, as previously noted, will be reported in the government-wide financial statements upon completion of construction. The exact amount due to the developers is not known until approved by the TCEQ and verified by the District's auditor.

	Contract Amount *
Sunterra traffic signals - phase 1	\$ 490,000
Elevated storage tank site fencing	140,000
Elevated storage tank access road	30,000
Stockdick and Pitts intersection improvements	1,220,000
Pitts and Clay and Pitts and Stockdick signals	290,000
	<u>\$ 2,170,000</u>

* Roundest to the nearest \$10,000

Note 8 – Long-Term Debt

Long-term debt is comprised of the following:

Bonds payable	<u>\$ 117,365,000</u>
Due within one year	<u>\$ 1,865,000</u>

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

The District's bonds payable at April 30, 2026, consists of unlimited tax bonds as follows:

Series	Amounts Outstanding	Original Issue	Interest Rates	Maturity Date, Serially, Beginning/ Ending	Interest Payment Dates	Call Dates
2022	\$ 11,960,000	\$ 12,480,000	5.00% - 5.50%	November 1, 2024/2048	November 1, May 1	November 1, 2029

	<u>\$ 117,365,000</u>					

Payments of principal and interest on all series of contract revenue bonds are to be provided from the participating districts, including the District in its capacity as a participating district, based on their pro rata share of the total certified assessed valuation of all participating districts. The participating districts are contractually required to levy a contract tax in an amount sufficient to meet their required contributions. Investment income realized by the Master District Debt Service Fund from investment of idle funds will be used to pay outstanding bond principal and interest. The District is in compliance with the term of its bond resolution.

At April 30, 2026, the District, in its capacity as a Master District, had \$550,302,000 contract revenue bonds authorized, but unissued for the purpose of regional water, sanitary sewer and drainage facilities and \$140,646,000 for road improvements.

As of April 30, 2026, the District in its capacity as a participating district, had \$27,610,000 unlimited tax bonds authorized, but unissued for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage system within the District and \$8,284,000 for the refunding of such bonds; \$23,285,000 for parks and recreational facilities and \$6,986,000 for the refunding of such bonds; and \$28,545,000 for road improvements and \$8,564,000 for the refunding of such bonds.

On August 26, 2025, the District, in its capacity as a Master District, issued its \$17,425,000 Series 2025 Contract Revenue Bonds at a net effective interest rate of 4.936681%. Proceeds of the bonds were used to (1) reimburse developers for the cost of capital assets constructed within the District plus interest expense at the net effective interest rate of the bonds; (2) to repay a \$9,680,000 BAN issued

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

in the previous fiscal year; and (3) to pay capitalized interest into the Master District Debt Service Fund.

On August 26, 2025, the District, in its capacity as a Master District, issued its \$16,135,000 Series 2025 Contract Revenue Road Bonds at a net effective interest rate of 4.939333%. Proceeds of the bonds were used to reimburse developers for the cost of capital assets constructed within the District plus interest expense at the net effective interest rate of the bonds and to pay capitalized interest into the Master District Debt Service Fund.

The change in the District's long-term debt during the year is as follows:

Bonds payable, beginning of year	\$ 84,915,000
Bonds issued	33,560,000
Bonds retired	<u>(1,110,000)</u>
Bonds payable, end of year	<u><u>\$ 117,365,000</u></u>

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

The debt service payment due May 1 was made during the current fiscal year. The following schedule was prepared presuming this practice will continue. As of April 30, 2026, annual debt service requirements on bonds outstanding are as follows:

Year	Principal	Interest	Totals
2027	\$ 1,865,000	\$ 5,627,006	\$ 7,492,006
2028	2,655,000	5,482,400	8,137,400
2029	2,790,000	5,307,401	8,097,401
2030	2,925,000	5,123,705	8,048,705
2031	3,070,000	4,932,588	8,002,588
2032	3,230,000	4,743,497	7,973,497
2033	3,390,000	4,566,816	7,956,816
2034	3,570,000	4,398,428	7,968,428
2035	3,740,000	4,232,908	7,972,908
2036	3,930,000	4,065,101	7,995,101

	<u>\$ 117,365,000</u>	<u>\$ 81,413,785</u>	<u>\$ 198,778,785</u>

Note 9 – Property Taxes

On November 3, 2020, the voters of the District authorized the District’s Board of Directors to levy taxes annually for use in financing general operations limited to \$1.50 per \$100 of assessed value. In addition, the voters of the District authorized the District’s Board of Directors to levy taxes annually for road maintenance limited to \$0.25 per \$100 of assessed value. The District’s bond resolutions require that property taxes be levied for use in paying interest and principal on long-term debt and for use in paying the cost of assessing and collecting taxes. Taxes levied to finance debt service requirements on long-term debt are without limitation as to rate or amount.

All property values and exempt status, if any, are determined by the Harris Central and Waller County Appraisal Districts. Assessed values are determined as of January 1 of each year, at which time a tax

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

Property taxes are collected based on rates adopted in the year of the levy. The District's 2026 fiscal year was financed through the 2025 tax levy, pursuant to which the District levied property taxes of \$1.50 per \$100 of assessed value, of which \$1.04 was allocated to maintenance and operations and \$0.46 was allocated to contract tax debt service. The resulting tax levy was \$71,255 on the adjusted taxable value of \$4,750,314.

Note 10 – Transfers to Other Governments

Waller County assumes responsibility for the maintenance of public roads constructed within the county limits. Accordingly, road facilities and certain drainage facilities are considered to be capital assets of Waller County, not the District. The estimated cost of each road project is recorded as a transfers to other governments upon completion of construction. This cost is trued-up when the developers are subsequently reimbursed. For the year ended April 30, 2026, the District recorded transfers to other governments in the amount of \$19,942,779 for road facilities and certain drainage facilities constructed by a developer within the District.

Note 11 – Master District

The District, in its capacity as a Master District, has entered into contracts (the "Contracts") with the District in its capacity as a participating district, MUD 5, MUD 37, Harris County Municipal Utility District No. 569 ("MUD 569") and Waller County Municipal Utility District No. 35 ("MUD 35") whereby the Master District agrees to provide or cause to be provided the regional water supply and distribution facilities, wastewater collection, treatment and disposal facilities, detention/drainage facilities, and road facilities to serve all districts located within the Master District's service area. Pursuant to the Contracts with each of the participating districts, and pursuant to the Contract between the District (in its capacity as a participating district) and the District (in its capacity as a Master District), the District, in addition to its role as a Master District, has the same rights and duties as the other participating districts. The term of the Contracts is 40 years.

The Master District has entered into a Wholesale Agreement for Water and Wastewater Service with Quadvest, under which Quadvest will provide wholesale water and wastewater supply to land within the Master District's service area. See Note 12 for additional information.

Operating Reserve

The Contracts authorize the establishment of an operating and maintenance reserve by the Master District equivalent to three months' operating and maintenance expenses, as set forth in the Master District's annual budget. Prior to commencement of services, the Master District shall bill the participating districts to provide the initial funding required to establish the reserve. As of April 30, 2026, the District has established an operating and maintenance reserve of \$1,589,205. The Master District shall adjust the reserve as needed, not less than annually.

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

Monthly Connection Fees for Operating Expenses

Upon commencement of services, the Master District will charge each participating district a monthly fee for Master District operating and maintenance expenses based on the unit cost per connection multiplied by the number of equivalent single-family connections (“ESFCs”) reserved to the District. As of April 30, 2026, the Master District billed \$9,933,546 to the participating districts for the operation and maintenance of the regional facilities.

Master District Debt

As of April 30, 2026, the District, in its Master District capacity, is authorized to issue \$550,302,000 in contract revenue bonds for the purpose of acquiring and constructing water, sewer, and drainage facilities needed to provide services to all participating districts in the service area and \$140,646,000 for road facilities. The participating districts, including the District in its capacity as a participating district, shall contribute to the payment of debt service requirements based on its pro rata share of the total certified assessed valuation of all participating districts. During the current fiscal year, the Master District issued its \$17,425,000 Series 2025 Contract Revenue Bonds and \$16,135,000 Series 2025 Contract Revenue Road Bonds. As of April 30, 2026, the District, in its Master District capacity has \$117,365,000 in contract revenue bonds outstanding. For the year ended April 30, 2026, participating districts were billed contract taxes in the amount of \$7,846,450, of which \$2,920,505 is receivable from participants as of fiscal year end.

Summary of Charges

For the fiscal year ended April 30, 2026, the District, in its capacity as a participating district, incurred the following costs pursuant to the Contract with the Master District:

- Monthly connection fees for operating expenses in the amount of \$23,775.
- Contractual obligations for Master District debt service requirements in the amount of \$23,400.

Note 12 – Wholesale Agreement

On September 15, 2020, Katy 1039, Ltd. (“Katy 1039”) and Quadvest, L.P. (“Quadvest”) entered into a Wholesale Agreement for Water and Wastewater Service (the “Agreement”) for the purchase of wholesale water and wastewater service necessary to serve 6,968 ESFCs within the Master District’s service area. On May 10, 2021, Katy 1039, the District, and Quadvest entered into an Assignment and First Amendment to the Agreement. On August 18, 2022, the District and Quadvest entered into a Second Amendment to the Agreement. On April 15, 2024, the District, Quadvest Wholesale, LLC (successor to Quadvest, L.P.), and Astro Sunterra, L.P. (successor to Katy 1039, Ltd.) entered into a Third Amendment to the Agreement (collectively, the “Amended Agreement”).

The Third Amendment increased the reserved capacity to 8,968 water ESFCs and 7,968 wastewater ESFCs, with a provision for up to 8,237 wastewater ESFCs upon TCEQ re-rating approval. The purchase price for capacity remains \$575 per ESFC for the initial 6,968 ESFCs, and increases to \$700 per ESFC for all capacity purchased beyond that threshold.

Harris - Waller Counties Municipal Utility District No. 4
Notes to Financial Statements
April 30, 2026

Quadvest is responsible for the meter installation and the design and construction of the interconnect facilities necessary to connect the District to Quadvest's water system. The wholesale water service charge is \$3.70 per 1,000 gallons of meter water flow. Quadvest is also responsible for the design and construction of the interconnect facilities necessary to connect the District to Quadvest's wastewater system. The wholesale sewer service charge is \$55 per ESFC.

The purchased price of the reserved water and wastewater capacity shall be based on \$575 per ESFC, representing one water ESFC and one wastewater ESFC per residential lot. As of April 30, 2026, the District has paid a total of \$5,645,000 for reserved water and wastewater capacity in Quadvest's systems. The term of this Agreement is 50 years.

Note 13 – Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; and personal injuries. The risk of loss is covered by commercial insurance. There have been no significant reductions in insurance coverage from the prior year. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

Note 14 – Concentration Risk

The District is currently dependent on its developers to finance the construction of infrastructure and to advance funds necessary to finance operating and administrative expenditures. The developers also own a significant portion of the undeveloped property within the District and are responsible for development of the tax base that will support future operations and debt service. As a result, the District is exposed to a concentration risk related to the developers. If the developers were unable to continue development activities or provide financial support, the District's ability to fund operations and complete infrastructure projects could be adversely affected.

Note 15 – Subsequent Events

On June 25, 2026, the District, in its capacity as a Master District, approved the sale of its \$26,255,000 Series 2026 Contract Revenue Bonds at a net effective rate of 4.450037%. Proceeds from the bonds will be used to reimburse the Master District's developers for infrastructure improvements in the District.

On June 25, 2026, the District, in its capacity as a Master District, approved the sale of its \$5,380,000 Series 2026 Contract Revenue Road Bonds at a net effective rate of 4.474167%. Proceeds from the bonds will be used to reimburse the Master District's developers for infrastructure improvements in the District.
